FIRE COMMISSION REPORT FEBRUARY 2023

**DEPUTY CHIEF SANDY TONG** 

#### **EMS DIVISION**

# Assistant Deputy Chief Niels Tangherlini February 2023

#### **OPERATIONS UPDATES**

The EMS Division averaged 356 calls per day. This represented a 2.3% increase over January. There were no days where EMS call volume was under 300 response per day, and only one where it was over 400. SFFD market share has dropped to 75% from an average of 85% in November. This is completely attributable to the LEMSA BLS pilot project whereby all 911 providers may put up to four ambulances staffed solely by EMTs into the 911 system during any 12-hour period. To date, only AMR and King American have taken part in this program, but the EMS Division is currently designing its approach to utilize SFFD BLS ambulances.

The average time on task for ambulances remains just above 97 minutes per response. This has remained steady since January 2022. However, time on task has steadily increased for more than two decades, with a rapid acceleration seen in the last two years. As in previous reports, much of this is attributable to increased delays at hospitals. Increased traffic congestion is also a likely contributing factor to increased time on task. The EMS Division will reach out to MTA to establish a mechanism to attribute traffic patterns to increasing time on task for SFFD ambulances.

February saw the return of in-person training being conducted at Station 49. The opportunity to work directly with instructors and have hands-on practice with new skills has long been identified as a vital part of improving working conditions by members of the EMS Division. This February, the EMS Division, in partnership with the Division of Training and leadership from the SFFD Medical Director, was able to start conducting in-person training sessions at Station 49. Led by Acting Captain Drew Barnekoff and Acting Lieutenant Janelle Cortright, all SFFD paramedics are being trained on new protocols and equipment. The instructors are receiving incredible praise for their outstanding work. This training includes education on how and when to administer Buprenorphine to people suffering from opioid addiction. As discussed at previous Commission meetings, Buprenorphine is a medication that assists opioid addicts through the worst aspect of withdrawal. Ideally this makes them more amenable to accepting substance abuse treatment. With every transporting paramedic being trained to administer this medication, the EMS Division will work with the CP Division and other City agencies to improve access to treatment programs from the field. In this way members of the EMS Division can further contribute to combating San Francisco's ongoing opioid epidemic.

On February 21<sup>st</sup>, H3L2 Class #9 started at the Division of Training. By the end of the academy, the EMS Division expects to add 7 more paramedics to its ranks.

Deputy Chief Tong, Section Chief of EMS Training Treff, and Lieutenant Hashim Anderson interviewed 15 graduates of the City EMT program for the next 9910 Internship cohort. Ten were selected and are going through the onboarding process.

On February 27<sup>th</sup>, Paramedic Anthony Chiacco, along with Battalion Chief Matt Cannon, was honored at the SF Rotary Club's Annual Emergency Services Day. Paramedic Chiacco, born and raised in SF, has been with SFFD since 2018, coming with 15 years as a paramedic in Alameda County. He works nonstop but makes time to volunteer at hospitals in the Dominican Republic. We have received many reports where his experience and outstanding care have made a critical difference in the lives of his patients. Happy the Rotary Club honored such a deserving emergency service worker.

#### **RESEARCH UPDATES**

On February 10<sup>th</sup>, representatives from Mind Rhythm held a simulcast celebration to demonstrate their appreciation for the strong work of EMS crews across three cities for their participation in the EPISODE study. The SFFD EMS Division was highlighted for their enthusiasm and high number of enrollments. The EPISODE Study was related to the Mind Rhythm stroke detection device. The EMS Division looks forward to participating in phase two of the EPISODE Study, which will involve gathering additional data aimed at gaining FDA approval for the device. The EMS Division is in talks with Mind Rhythm to become the first EMS provider in the world to use this device clinically.

#### **NOTABLE ACTIVITIES**

Everyday members of the EMS Division provide lifesaving care and support to the citizens and visitors to the City and County of San Francisco. This may include restarting the heart of a cardiac arrest victim, relieving pain from a broken bone, or simply assuring someone with a kind word or warm blanket. Each of the 350 responses per day is notable in some way, but here are several examples of some of the care being provided by the EMS Division:

- 1. On February 9<sup>th</sup>, an explosion rocked a home in the Sunset District. EMS units treated and then transported a female patient suffering from multiple third-degree burns. Crews were able to maintain the patient's airway and breathing along with treating the effects of multiple burns until care could be turned over to the burn unit at St. Francis Hospital. The patient is doing well and is due to be discharged soon.
- 2. On February 16<sup>th</sup>, members of the EMS Division treated and transported two patients suffering from second and third degree burns from a working fire. Both patients were treated at St. Francis Hospital and discharged home. Additional EMS units were able to play vital roles in supporting efforts on scene. Captain Filiss filed a report praising the efforts of one member as follows:

"On February 16, 2023, I responded to a working fire at 0958 at 209 14th Ave. Incident # 23022676. Medic 80 was my third ambulance to arrive. I kept M80 and released M79 when the fire was placed under control. John Lee, M80, native Cantonese speaker, was invaluable on the scene. 14 displaced residents all spoke Cantonese. John was able to gather information about fire flow for command. He helped us with number of residents and who was home, known elsewhere, or missing. He assisted police officers with their interviews. When Red Cross arrived, he was able to help them as well. He also translated for arson when they interviewed the residents. However, the greatest impact he had was in conveying information to the residents which provided them much comfort. Please pass on my gratitude, and that of Battalion 7, Arson, Red Cross, and the Police Department, who all reiterated their appreciation and admiration for his assistance."

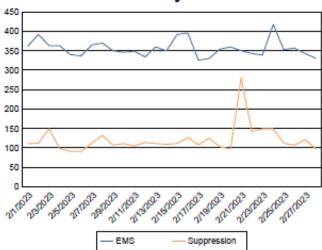

- 3. On February 19<sup>th</sup> Medic 52, along with E34 and RC2, responded to a cardiac arrest involving a 26 year-old male. Despite the patient being in asystole, crews were able to attain return of spontaneous circulation (ROSC). The patient continues to receive care at Kaiser San Francisco.
- 4. On February 26<sup>th</sup> crews treated a potential stroke victim and delivered the 68-year-old male to definitive care rapidly. Because of their early identification and notification of a potential stroke victim the patient had a 22-minute door to needle time. Staff at Davies Medical Center provided feedback along with praise for the effort of the crew.

#### **SFFD ACTIVITY SUMMARY – February 2023**

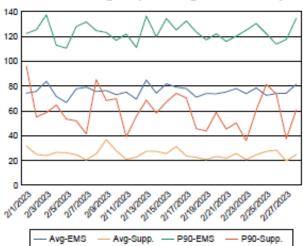

SFFD Activity Summary From 02/01/2023 To 02/28/2023

| Call Date  | EMS Calls Su | ippression<br>Calls | Total<br>Calls | EMS Call<br>Avg. (Min) | Transport<br>Avg. (Min) | Suppression<br>Avg. (Min) | EMS S<br>P90 (Min) | uppression<br>P90 (Min) |

<sup>\*</sup>SWRT & SCRT will reconfigure on Saturday, March 4th

#### **Community Paramedicine Division Highlights**

- 5150 Training: An additional nine (9) community paramedics received 5150 training from Dr. Chris
  Wright, DPH, and are now authorized to place involuntary mental health holds while working in the
  capacity of a community paramedic captain. To date, 34 members total have received 5150 training.
- Community Paramedicine Speaker Series: Dr. Lena Miller, Founder & CEO Of Urban Alchemy, spoke to Department members as February's speaker for the 2023 Community Paramedicine Speaker Series. Dr. Miller enhanced our knowledge of Urban Alchemy's mission and history, as well as new initiatives the organization will be leading in San Francisco, including the Crisis Response Team.

February 28, 2023 1:00 – 2:30 pm

## San Francisco Fire Department

Community Paramedicine Division 2023 Monthly Speaker Series

Dr. Lena Miller, Founder & CEO of Urban Alchemy

Dr. Miller will enhance our knowledge of Urban Alchemy's mission and history, as well as new initiatives the organization will be leading in San Francisco. After her talk there will be time for a facilitated Q&A session with Department personnel.

All San Francisco Fire Department Members Welcome Registration: https://tinyurl.com/CPspeakerFeb

 California Lieutenant Governor Eleni Kounalakis visited Station 49 on February 16<sup>th</sup> with members of Local 798 and the California Professional Firefighters Association to learn about EMS, community paramedicine, and the challenges and successes our members are experiencing. Lt. Governor Kounalakis received a tour of an SCRT unit and held a roundtable session with members.

- Meeting with California Professional Firefighters (CPF) Legislative Staff: ADC Pang, Section Chief Mason and CP Division Medical Director Dr. Graterol met with legislative affairs staff of CPF to discuss the current state assembly efforts to extend and build upon community paramedicine legislation. The current bill, AB 767, is sponsored by Assembly Member Gibson and supported by both CPF and the California chapter of the American College of Emergency Physicians (California ACEP). As the state's largest community paramedicine program, we will be working closely with CPF staff and other stakeholders in the months ahead to advocate for the bills content and passage.
- San Francisco Fellows Program: The CP Division submitted a joint application with the EMS Division and was awarded a free project supported by four (4) SF Fellows. The project, development of an online knowledge base for the divisions, allows the Fellows to work on a topic outside their department placements, develop project management skills, and produce a tangible result for the benefit of the Department. <a href="https://sfdhr.org/sffellows">https://sfdhr.org/sffellows</a>
- Meeting with California EMS Agency Regulators: Section Chief Mason and Dr. Graterol met with state
  regulators from the California EMS Agency (CA EMSA) to discuss data requirements stemming from
  the passage of AB 1544. A proposal for us (SFFD) to host a collaborative community paramedicine
  data symposium was well received and we will be working towards partnering with our CA EMSA
  colleagues to operationalize the concept this summer.

#### EMS-6

Operational period: 1/31/2023 – 2/28/2023

Total encounters: 369

Average encounters per day: 12

Average connection rate to resource: 42%

Utilization changes of top 20 utilizers engaged by EMS-6 from month before the operational period to

current: -53%

| <b>Encounter Type</b>    | Previous | Current |
