September 2023***

FACILITY MAINTENANCE & PLANNING (June Waechtler, SFFD)

- A total of 165 requests for service were initiated during the month of September 2023.
- 118 service orders were completed and closed out in September 2023.

PLUMBING

- Twenty-seven (27) service calls were placed to resolve minor plumbing issues (faucet, toilet, urinal repairs; clogged sinks, shower drains) in the month of September 2023. All issues were addressed by SFFD's new plumber.
- One sewage backup (FS 26) was reported during September 2023.
- No new water heaters were installed in September 2023 (10 water heaters have been installed since January 1, 2023).

The Division held interviews to hire a plumber and electrician who will be tasked with the Department's day-to-day plumbing and electrical needs that are currently managed by DPW trades. Both employees will report to the Stationary Engineer. Support Services anticipates the new employees employment will commence late June or early July. The division will experience an immediate savings with the hiring of trade personnel as we will no longer be utilizing DPW's services for routine plumbing and electrical repairs. Both employees are scheduled to start July 10, 2023. The plumber and the electrician started employment with the Department on July 10th. It was determined during the on-boarding process that the electrician did not possess a valid vaccination card, therefore his employment was terminated. Human Resources has been advised to commence the recruitment process immediately to hire a qualified electrician. *Status update: Waiting for Human Resources to commence recruitment process again.*

HVAC/HEATING/BOILER

- FS 23: Heater in Officer's Room needs to be replaced including new t-stats, on-off switch. Drying Room needs new heater and exhaust fan. Modifying controls to include timer and on/off switch in or outside Drying Room. Waiting for quote from DPW's Steamfitters Shop for two heaters, one exhaust fan and the necessary control work. *Status Update: Quote received from DPW; in for ADC of Support Service's review.*
- FS 5: Boiler needs new flue to be fabricated by DPW Sheetmetal Shop; after fabrication and installation of new flue, DPW Steamfitters will run new drain and condensate neutralizer. DPW's Steamfitters Shop determined that this work should be reassigned to DPW's Sheet Metal Shop. Waiting for quote for fabrication from Sheet Metal Shop. *Status Update: Quote received from DPW's Sheetmetal Shop; in for ADC of Support Service's review.*

- FS 28: Flushed entire heating system and strainers of fan coil and air handlers; will replace 3 t-stats. Pump was replaced and 2 of the 3 T-stats have been replaced. The last of the 3 T-stats installed in March. New equipment is not syncing with older equipment plus multiple zones with inadequate heat. Additional control valves and thermostats are needed. Quoted 3 days labor plus \$3,000 parts which was approved by ADC Mullin. New thermostats and control valves have been received and need to be installed. Installation scheduled for mid-July. New control module was installed on air handler. T-stats and control valves still need to be added to the 4 heating zones. We are complete with 3 of the control valves and t-stats. Steamfitters need to install 2 more control valves (which were buried in ceiling). *Status Update: All new thermostats and control valves have been replaced. Additional issues remain: HHW pump is making grinding noise and control valves on the roof units are becoming severely compromised by exposure to the elements. DPW proposing to replace one pump and 2 control valves with weather shield for the roofing units. Waiting for equipment and labor cost estimate.*
- FS 14: New pulleys, motors and belts were installed on the station's exhaust extractor system to improve intake. Fan not performing as designed. Rep from Nederman (manufacturer of the exhaust extractor) came on-site for inspection, and recommended a different exhaust fan for the exhaust extractor. HVAC installation is complete. Nederman exhaust fan had to be replaced and has been ordered; ETA is 3 months. DPW Steamfitters are still waiting for fan procurement. Issued PO to Air Filtration on 5/25/23. *Status update: Fan expected to be delivered mid-October.*
- FS 22: Re-circ pumps need to be replaced. DPW Steamfitters to conduct walk thru with Support Services then provide estimate for re-pipe. Status Update: Moving forward with estimate for re pipe. *Status Update: Waiting for equipment and labor estimate from DPW Steamfitters.*
- FS 9: ESTIMATES RECEIVED from DPW Steamfitters to replace 3 rooftop HVAC units: \$149,701.72. Submitted approval to DPW/BBR to proceed with work as quoted. *DPW Steamfitters submitted a quote for new equipment on 7/31/23. Status Update: Equipment is due to arrive shortly. PO has been generated for vendor Sheedy.*
- FS 17: ESTIMATE RECEIVED to replace Boiler: preliminary estimate \$222,000. Pending approval from Client (SFFD). *Status Update: deferred until funding is available.*
- FS 13: ESTIMATE RECEIVED for Furnace/Forced air units in dorm; price also includes replacing exiting ductwork: preliminary estimate \$80,000. Awaiting formal ESTIMATE from DPW/BBR. DPW's Steamfitters made a temporary repair, however 2/4 zones have bad heat exchangers and gas is locked out. Troubleshooting is continuing. Unit is working with temporary repair in place. *Status update: Still waiting for updated estimate.*
- FS 26: ESTIMATE RECEIVED for Furnace/Forced air units: \$137,211.66. Submitted approval to DPW/BBR to proceed with work as quoted. *Status Update: DPW Steamfitters submitted quote for equipment on 7/31/23. Waiting for PO. Heating units have arrived. Demo will be scheduled with DPW Sheet Metal and the SFFD.*
- FS 11: Dorm heater not working. DPW Steamfitters will replace leaking valves and try to fix leak on unit. Proposes that unit may need to be replaced if leak persists. There were multiple leaks, which included the valves which were replaced, however the unit

still leaks. Unit valved-off and put out of service. DPW to quote replacement of unit. Estimate new unit may cost approximately \$3,000 and it may take up to 30 hours to demo old unit and install new one. DPW proposal forthcoming. DPW Steamfitters anticipate that a new heater may cost \$8,000. Waiting for quote from DPW Steamfitters. *Status update: New heating unit will cost \$9,000; still waiting for labor estimate.*

- FS 12: Boiler re-pipe proposal. *Status update: Waiting for revised quote from DPW Steamfitters.*
- FS 41: Boiler controls proposal. *Status update: Waiting for revised quote from DPW Steamfitters.*
- FS 1: AC inoperable. *Status update: DPW Steamfitters discovered a leak at the evaporator. Installed isolation valves. Ordered new evaporator.*

CEMENT/ASPHALT

One cement/asphalt issue pending: FS 6. Deferred until August when this FY's budget is defined. Received a price quote to repair the apron at FS 6. Will process purchase order. *Status Update: Purchase order issued to vendor.*

EXHAUST EXTRACTORS

ELECTRICAL

No major electrical issues were reported.

LANDSCAPING

- Requested DPW/Bureau of Forestry to perform site inspection of the trees surrounding FS 10 (over 80 trees in total) to determine if any were diseased, at risk of toppling, etc. Site inspection was performed; waiting for a written report on findings but nothing

needed immediate attention. A site visit with BUF on May 11th revealed that several trees need significant pruning and thinning. Waiting for written estimate for tree trimming. Received estimate to remove large overlapping branches that overhang station parking lot, back of building plus work to include elevating branches over sidewalk and parking spaces: Crew of 5 for 3 days \$20,959.34. All 80 plus trees are within the Fire Department's property line and are not funded for maintenance through the Public Works Street Tree SF Program, therefore, we are responsible for all maintenance. Forwarded estimate to CFO to schedule work for next fiscal year. Next trim should be scheduled within the next 3-5 years. ADC of Support Services will meet with CFO in August to discuss this FYs budget and determine how to proceed. *Status Update: Project on hold as other more pressing issues must take precedence.*

- 1415 Evans Ave: Requested that DPW/Bureau of Forestry perform inspection of large tree in the yard that had suffered some wind damage to its branches. Site inspection was performed by BUF on May 11th. Waiting for written report from BUF on findings, however the tree was not at risk of uprooting or needed immediate attention. *Status Update: Received estimate for \$3,341.30. On hold for now as other more pressing issues must take precedence.*

PAINT

No major paint issues were reported.

PEST MANAGEMENT

FS 37 experienced another flea infestation during month of July. As FS 37 had a flea infestation in 2021, Support Services was quick to dispatch Pestec to treat rear yard and eventually fire station common areas to mitigate a full blown infestation. Currently observing effectiveness of treatment plan in order to determine if additional treatment is needed. Members have been advised to minimize exposure to rear yard of Station as this is the area the pest exterminator suspects is the problem area. *Status update: still treating and monitoring.*

P.H.S. BOND 2016 NFS – Updates through September 2023

The total funding allocated for Neighborhood Fire Stations is \$9.1M.

Seismic Improvement Program (Michael Rossetto, San Francisco Public Works):

- **Hose Tower Removal & Roofing (FS 6, 11, 12, 21, 38)** – Complete.
- **Hose Tower Removal & Replacement (FS 15)** –
On 4/13/23 funding was made available by way of reallocation of funds back to PHS NFS from PHS ADF. Job Order Contract (JOC) is being pursued for time savings. The construction documents will be completed by October 2023. The goal is to NTP construction by Fall '23.

Focused Scope Program (Michael Rossetto, San Francisco Public Works):

Emergency Generators:

- **FS 37 & 44:**
 - Project was bid on August 3, 2022; BBJ Electric was the sole bidder. CMD deemed BBJ nonresponsive due to LBE compliance issues, but on September 6, 2022, CMD issued a compliance memo that BBJ had remedied their LBE requirements.
 - On December 16, 2022, the PW Commission awarded this project to BBJ Electric.
 - The award package was sent to BBJ on December 27th.
 - Construction NTP was issued on 3/27/23.
 - The 60kw generator originally specified for FS 37 is no longer compliant, due to a change implemented by the Bay Area Air Quality Management District (BAAQMD). The 80kw generator specified for FS 44 is still compliant, so after meeting with SFFD, the team resubmitted to DBI to change the FS 37 generator to match the 80kw generator. The permit was issued on 9/20/23. The generator orders have been made.
- **FS 18:**
 - On 4/13/23 funding was made available by way of reallocation of funds back to PHS NFS from PHS ADF
 - An Invitation to Bid (or JOC) will be advertised in 2023, following FS 15 Hose Tower, depending on available remaining funds to implement the construction phase.
