This recruitment cycle marked the complete transition to FCTC. All eligible candidates were pulled from the FCTC Statewide Eligibility List. Lt. Hashim Anderson worked with FCTC and DHR for recruitment and messaging to notify all candidates of the pending change. FCTC helped with social media blasts for deadlines and process. DHR contacted all candidates that submitted applications for the H2 position through Smart Recruiters. All candidates were instructed to reapply for the current recruitment cycle.

Summary of candidates:

- **747** Applicants for the H2 Firefighter position
- **556** Eligible candidates invited to Preliminary Panel Interviews

San Francisco Conservation Corps

- Trained 14 SFCC Corpsmembers on Wildland Firefighting
- 12 Participants completed the training and were certified in S-130 and S-190.
- BC Siguenza, Reserve Firefighters Eddie Hughes, Matt Chavez, Joe Del Bianco, Mike Fitzgerald and Lt. Hashim Anderson provided instruction.

The SFFD provided support to the San Francisco Conservation Corps (SFCC) to train their members in wildland firefighting. This training will allow the SFCC to qualify for the Forestry Corps. As a contingent of the Forestry Corps, the Corpsmembers will be able to bid on contracts for fuel reduction and vegetation mitigation with the California Conservation Corps (CCC). The SFCC received a \$500k grant from the CCC to cover the cost of tools, equipment, PPE and the cost of our instruction.

Fire Reservists Chavez, Del Bianco, Fitzgerald and Hughes all have extensive wildland firefighting experience with Cal-Fire and Marin County Fire and supported this project by providing skills training.

The SFCC would like to provide their Corpsmembers with S-212 Chainsaw training. BC Siguenza and Lt. Anderson are looking into the feasibility of providing this training.

- 170 service orders were completed and closed out in January 2024.

PLUMBING

- Only one (1) sewage backup was reported during this month (FS 13).
- No new water heaters were installed in January 2024.

HVAC/HEATING/BOILER

- FS 23: Heater in Officer's Room needs to be replaced including new t-stats, on-off switch. Drying Room needs new heater and exhaust fan. Modifying controls to include timer and on/off switch in or outside Drying Room. Waiting for quote from DPW's Steamfitters Shop for two heaters, one exhaust fan and the necessary control work. *Status Update: Quote received from DPW; in for ADC of Support Service's review.*
- FS 5: Boiler needs new flue to be fabricated by DPW Sheetmetal Shop; after fabrication and installation of new flue, DPW Steamfitters will run new drain and condensate neutralizer. DPW's Steamfitters Shop determined that this work should be reassigned to DPW's Sheet Metal Shop. Waiting for quote for fabrication from Sheet Metal Shop. Quote received from DPW's Sheetmetal Shop; in for ADC of Support Service's review. Scope of Work has been approved by Support Services and material is in procurement. *Status Update: Waiting for work to commence.*
- FS 28: Flushed entire heating system and strainers of fan coil and air handlers; will replace 3 t-stats. Pump was replaced and 2 of the 3 T-stats have been replaced. The last of the 3 T-stats installed in March. New equipment is not syncing with older equipment plus multiple zones with inadequate heat. Additional control valves and thermostats are needed. Quoted 3 days labor plus \$3,000 parts which was approved by ADC Mullin. New thermostats and control valves have been received and need to be installed. Installation scheduled for mid-July. New control module was installed on air handler. T-stats and control valves still need to be added to the 4 heating zones. We are complete with 3 of the control valves and t-stats. Steamfitters need to install 2 more control valves (which were buried in ceiling). All new thermostats and control valves have been replaced. Additional issues remain: HHW pump is making grinding noise and control valves on the roof units are becoming severely compromised by exposure to the elements. DPW proposing to replace one pump and 2 control valves with weather shield for the roofing units. Waiting for equipment and labor cost estimate. The new pump and valves with the weather

shield comes to \$4,600 installation will take approximately 2 men to install in two days. Waiting for ADC of Support Services approval to proceed. Approved by Support Services. Waiting for parts to be procured. *Status Update: Material is in; waiting for labor.*

- FS 14: New pulleys, motors and belts were installed on the station's exhaust extractor system to improve intake. Fan not performing as designed. A rep from Nederman (manufacturer of the exhaust extractor) came on-site for inspection, and recommended a different exhaust fan for the exhaust extractor. HVAC installation is complete. Nederman exhaust fan had to be replaced and has been ordered; ETA is 3 months. DPW Steamfitters are still waiting for fan procurement. Issued PO to Air Filtration on 5/25/23. Fan expected to be delivered mid-October. New fan has arrived. DPW anticipates swapping out unit will take two men two days of labor to accomplish. Installation anticipated to be completed in January, 2024. *Status Update: Replacement fan arrived; waiting for labor.*
- FS 22: Re-circ pumps need to be replaced. DPW Steamfitters to conduct walk thru with Support Services then provide estimate for re-pipe. *Status Update: Moving forward with estimate for re pipe. Status Update: Waiting for equipment and labor estimate from DPW Steamfitters.*
- FS 9: ESTIMATES RECEIVED from DPW Steamfitters to replace 3 rooftop HVAC units: \$149,701.72.
Submitted approval to DPW/BBR to proceed with work as quoted. DPW Steamfitters submitted a quote for new equipment on 7/31/23. Equipment is due to arrive shortly. *Status Update: Given that FS 26's furnace install is nearing completion, DPW Steamfitters can start on FS 9's AHU replacement. Roof will be open for 1 week while sheetmetal is building curbs for the new units.*
- FS 13: ESTIMATE RECEIVED for Furnace/Forced air units in dorm; price also includes replacing existing ductwork: preliminary estimate \$80,000. Awaiting formal ESTIMATE from DPW/BBR. DPW's Steamfitters made a temporary repair, however 2/4 zones have bad heat exchangers and gas is locked out. Troubleshooting is continuing. Unit is working with temporary repair in place. Received estimate for \$104,888.00. Waiting for ADC of Support Services to approve quote. *Status Update: Approved by Support Services. Waiting for labor availability.*
- FS 26: ESTIMATE RECEIVED for Furnace/Forced air units: \$137,211.66. Submitted approval to DPW/BBR to proceed with work as quoted. DPW Steamfitters submitted quote for equipment on 7/31/23. Waiting for PO. Heating units have arrived. Demo will be scheduled with DPW Sheet Metal and the SFFD. Waiting on DPW Steamfitter's availability. Equipment delivered to rooftop of Station. Waiting for ductwork to be fabricated. *Status Update: Flue piping is 100% complete. After sheetmetal is completed, they will finish drain piping and start unit up.*
- FS 12: Boiler re-pipe proposal. Received revised quote from DPW Steamfitters \$ 72,025.26. Waiting for ADC of Support Services to approve quote. *Status Update: Approved by Support Services. Waiting for labor availability.*
- FS 41: Boiler controls proposal. Received revised quote from DPW Steamfitters \$ 23,559.83. Waiting for ADC of Support Services to approve quote. *Status Update: Approved by Support Services. Waiting for labor availability.*

- FS 25: New radiator needed in Ladies Locker Room. Unit costs \$9,000 plus \$1,000 in parts. Anticipate 30 hours of labor needed. Waiting for ADC Support Services to sign off on proposal.
- FS 37: RADIATORS It was discovered that 17 radiators need new valves to control on/off. Nine (9) of the units do not work. Waiting for proposal to change out all valves. DRYING ROOM Drying Room Heater needs a 3-way valve and an outdoor air override that needs to be installed. Proposing two men to take nine (9) days, plus \$3500 in parts. The heat is on in the Station and the new program settings are adequate to get thru the winter. Work will need to be done when they are permitted to shut Boiler down for a few days. Waiting for formal quote to be sent to ADC Support Services for sign off.
- FS 19: Drying Room motor needs to be replaced. Waiting for quote.

Requested DPW/Bureau of Forestry to perform site inspection of the trees surrounding FS 10 (over 80 trees in total) to determine if any were diseased, at risk of toppling, etc. Site inspection was performed; waiting for a written report on findings but nothing needed immediate attention. A site visit with BUF on May 11th revealed that several trees need significant pruning and thinning. Waiting for written estimate for tree trimming. Received estimate to remove large overlapping branches that overhang station parking lot, back of building plus work to include elevating branches over sidewalk and parking spaces: Crew of 5 for 3 days \$20,959.34. All 80 plus trees are within the Fire Department's property line and are not funded for maintenance through the Public Works Street Tree SF Program, therefore, we are responsible for all maintenance. Forwarded estimate to CFO to schedule work for next fiscal year. Next trim should be scheduled

within the next 3-5 years. ADC of Support Services will meet with CFO in August to discuss this FYs budget and determine how to proceed. Project on hold as other more pressing issues must take precedence. *Status Update: Received approval for funding. Waiting for labor availability.*

E.S.E.R. BOND 2014 NFS – Updates through January 2024

Seismic Improvement Program (Magdalena Ryor, San Francisco Public Works):

• **Fireboat Station 35 (\$50.5M)** – Certificate of Final Completion was issued on November 11, 2022. Final Payment Application to Swinerton/Power, JV was approved on 7/10 followed by the final release of retention on 7/12/2022. Project is in the Warranty Period. o [M. Rossetto] FS35 Security gate enhancement has emerged as a high priority for SFFD. Contractor procurement is completed with the construction NTP issued 1/22/24. The contractor will be required to obtain permits from BCDC and the Port.

Focused Scope Program (Michael Rossetto, San Francisco Public Works):

Total funding allocated for the Focused Scope Program is \$21,407,279, approved by SFFD on 8/17/17. Work is complete in 8 of 9 of the Focused Scope categories comprising Roofing, Apparatus Bay Door Replacements, Exterior Envelope Improvements, Windows, Showers, HVAC/Mechanical, Sidewalk/Slabs, and Security/Access Control Work continues to progress through the last scope category, Generator Replacements.

Emergency Generators:

o **FS 2** – Scope of work: replace existing rooftop generator set, structurally strengthen roof structure to support new fuel tank with capacity for 72-hour run time and provide new fuel fill port and piping to generator. ▪ This project is complete.

o **FS 19** – Scope of work: replace existing generator at grade and replace main electrical panel. ▪ Job Order Contract (JOC) has been approved for MIK Construction with the construction NTP issued 1/22/24.

Exterior Envelope:

o **Package 1 (FS 8, 20, 23, 29)** – FS 8, 20, and 29 are complete; On 1/15/21, SFFD requested a hold on FS 23 painting due to other priorities.

o **Package 2 (FS 24, 34)** – This project remains on HOLD initially placed at the request of Capital Planning in order to provide supplemental funding to the Police TC&FSD project. It is now expected that those funds will be returned to the SFFD for allocation to a priority project, possibly FS24 and/or FS34.

o FS 17 & 31 Exterior Envelopes were requested as new projects by SFFD in August 2023, both as lower priorities. These were approved by the Capital Planning Committee for use of ESER 2014 interest. A waterproofing consultant is recommended to determine corrective measures and potential costs.

Miscellaneous:

FS35 Security Fence Enhancements, FS17 Boiler Replacement & FS 29 Apparatus Bay Door Replacement were requested as new projects by SFFD in August 2023. These are ranked as the highest priority (most urgent) projects after the Network Modernization project.

- **FS 35** – See Fireboat Station 35 description.
- **FS 17** – ON HOLD per SFFD 12/12/23 email.
- **FS 29** – DPW-BOA drawings & spec updates completed in December 2023. Project initiation procedures (RAMS, SAR) will be completed by February 2024 allowing JOC procurement.

Network Modernization Project (Michael Rossetto, San Francisco Public Works):

Survey existing network infrastructure and document recommended improvements at all fire stations. The first surveys were performed on 1/17/23 at FS 29 and 37. Additional surveys and documentation have occurred at fire stations:

- 1/17/23: Fire Stations 29 and 37.
- 3/7/23: Fire Stations 25, 17, 49 (ADF), 9, and BOE at 1415 Evans.

- 9/6/23: Fire Station 48, DOT at Treasure Island and 51 (revisit with Presidio Trust Fire Marshal) and other locations requiring more information.

Survey documentation has been completed by the architectural team and reviews with DT and DPW have also been completed. DPW has met with the Planning Department who has categorized the project as “not a project” which eliminates the need for further review by Planning. This eliminates approximately 3-6 months from the schedule. Architectural drawings & specifications are underway to be used for JOC procurement. Hazardous materials surveys are required to determine where abatement services will be required prior to construction. Consultant as-needed procurement is underway.

Highlights:

- The draft report from SCS Engineers was delivered in January 2024 for projected smoke emissions from the fire training facility. The data from this draft report will be submitted to Planning for review and consideration in March 2024.
- The Street Vacation Application was submitted in January 2024, along with the updated General Plan Review for the vacation of Hawes Street, Bancroft Avenue, and Griffith Street. All three streets are undeveloped, “paper streets.” The plan is to reach out to the community in Spring 2024 to update them on the project before legislation is introduced.
- A 90% Concept Design package was released on January 22, 2024, and is currently being estimated by two estimating firms. The plan is to reconcile the estimates and work through any budget challenges in February to have a project that meets the program needs within the budget constraints before moving on to Schematic Design in March.
- A combined RFQ and RFP (Request for Qualifications & Request for Proposal) for Construction Manager/ General Contractor services is targeted for release in Spring 2024 with progress information from the Schematic Design process informing the process.

P.H.S. BOND 2016 NFS – Updates through January 2024

The total funding allocated for Neighborhood Fire Stations is \$9.1M.

Seismic Improvement Program (Michael Rossetto, San Francisco Public Works):

- **Hose Tower Removal & Roofing (FS 6, 11, 12, 21, 38)** – Complete.
- **Hose Tower Removal & Replacement (FS 15)** –
December 2023 JOC fee proposal was received and is in excess of the \$1M threshold. Design-bid-build will be pursued, adding approximately 6 months to the start of construction. SFFD has requested minor design changes with the addition of electrical outlets and a ship’s ladder in lieu of a vertical ladder to the roof. BOA will be revising the design and will review with SFFD, anticipated February 2024.

Focused Scope Program (Michael Rossetto, San Francisco Public Works):

Emergency Generators:

- **FS 37 & 44:**
 - Generators are in fabrication. The contractor has indicated that the 64-week lead time may be reduced but is yet to confirm a new delivery date.
 - Project was bid on August 3, 2022; BBJ Electric was the sole bidder. CMD deemed BBJ nonresponsive due to LBE compliance issues, but on September 6, 2022, CMD issued a compliance memo that BBJ had remedied their LBE requirements.
 - On December 16, 2022, the PW Commission awarded this project to BBJ Electric.
 - The award package was sent to BBJ on December 27th.
 - Construction NTP was issued on 3/27/23.

- The 60kw generator originally specified for FS 37 is no longer compliant, due to a change implemented by the Bay Area Air Quality Management District (BAAQMD). The 80kw generator specified for FS 44 is still compliant, so after meeting with SFFD, the team resubmitted to DBI to change the FS 37 generator to match the 80kw generator. The permit was issued on 9/20/23. The generator orders have been made.
- **FS 18:**
 - On 4/13/23 funding was made available by way of reallocation of funds back to PHS NFS from PHS ADF
 - DPW-BBR/BSSR declined the work in January 2024. JOC procurement is underway.
 - PW Regulatory Affairs (RA) & Site Assessment & Remediation (SAR) work is complete.

REVOLVING MONTHLY OUTREACH

- Multiple Public Safety announcements were provided throughout the month.
- Engine companies continue to pass fire prevention and education material on calls or the public. This material is now available on our website in multiple languages. To download, visit: www.sf-fire.org
- Coastal Rescue companies continue to give Surf Hazard Education to the community while on calls or while out in public (Targeted to Ocean Beach Area)
- Cliff Rescue units provide rescue and animal safety community outreach in areas like Fort Funston.
- Sign up for emergency notifications by texting "**ALERTSF**" to this number: 888-777
- Recruitment efforts towards all populations continue.
- The "See the Red Lights Pull to the Right" campaign for yielding to emergency vehicles is striking comments from the public regarding what to do when they see an emergency vehicle.
- Bicycle safety messages on social media and public areas promote safe riding habits, wearing helmets, following traffic laws, yielding to pedestrians and emergency vehicles, and more. These efforts are to help reduce bicycle-related accidents and injuries.
- Pedestrian Safety and distracted driver safety messages on social media: "Look don't like" (referring to texting), yield to pedestrians, and share the road with a bicyclist, to name a few.
- Pet safety tips for fire and environment-related issues are placed on social media and shared with media outlets. Examples include: Do not forget your pets when making a home, work escape, or disaster plan."
- Cliff and hiking safety messaging on social media helps reduce falls, entrapments, and rescue incidents.
- Information on the station rebuilds and the ESER 2014 BONDS has been posted on social media to help keep the community informed.
- The Department has joined a national fire Service campaign: "**Close your Door before you Doze.**" These efforts encourage closing bedroom doors at sleep to increase your chances of survival or saving during a fire. The temperature outside a door can be 1000 degrees, and in the bedroom with a closed door, it is 100 degrees.
- The Department has teamed up with D.E.M. to promote "When to Call 911" campaign to help reduce non-emergency calls to 911.
- The Department worked with SF-Environment to promote fire extinguisher disposal.
- The Department assisted SF-Environment with battery safety information on disposing them properly. When improperly disposed of, old batteries can cause fires. To learn more, visit: www.sfbatterysafe.org
