The background of the slide is a large, semi-transparent seal of the United States Coast Guard. The seal features an eagle with wings spread at the top, a central shield depicting a landscape with mountains and a ship, and two figures on either side: a sailor on the left and a surveyor on the right. The entire seal is surrounded by a laurel wreath.

The background of the slide features a large, semi-transparent seal of the U.S. Department of Justice, Bureau of Fire Prevention and Investigation. The seal is circular and contains an eagle with spread wings at the top, a shield in the center, and two figures (a miner and a sailor) on either side. The shield depicts a harbor scene with ships. At the bottom of the seal is a banner with the motto "EN GUERRA ORO EN PAZ FIERRO". The seal is rendered in a light blue/white color, set against a dark grey background with a red laurel wreath border.

SFMTA - TASC, SDAT, DPW, BART, MUNI, Cruise and SFFD Fire Access

**SFMTA: TASC (Transportation Advisory Safety Committee) Summary**

- All streetscape modification proposals impacting Fire Access reviewed bi-monthly. TASC review for Street Closures for Food Banks, Shared Spaces and Safe Sleeping Sites

**SDAT (Street Design Advisory Team)**

- Weekly meetings with SF Planning Department and City Agencies to review and provide comments on streetscape plans/proposals for building/ development projects.

**DPW**

- SFFD conducts plan review to ensure SFFD apparatus has fire access to buildings, hydrants, fire department connections, fire escapes, etc.

**BART/MUNI**

- SFFD Liaison to BART/MUNI for Fire and Life Safety Annual Inspections

**SFFD**

- Contact Fire Stations regarding Traffic Calming proposals in their response area. Work with SFPD, DPW, SF Parks and Rec and the Presidio regarding the SFMTA Slow Streets and Shared Spaces ensuring Fire Access. Now collaborating with BFP Permits ISCOTT and Shared Spaces temporary street closures (ISCOTT), as there is some overlap of Shared Spaces Street Closures and ISCOTT post Pandemic

The background of the slide features a large, semi-transparent seal of the U.S. Army Corps of Engineers. The seal is circular and contains an eagle with spread wings at the top, a shield in the center, and two figures (a laborer and a sailor) on either side. The shield depicts a landscape with a bridge and a ship. At the bottom, a banner reads "EN GUERRA ORO EN PAZ FIERRO". The seal is rendered in a light blue/white color against a dark grey background.

 What's happening in training?  
 A German visitor  
 Meet our newest members!  
 Confined Space Entries

## Working "bus" Fire!!

For anyone questioning whether we actually have fires.. the answer is YES! Although they may not always be the structure fires we are used to, we still do have a fair amount of vehicle fires. In this case... a bus fire.

B65, R54 & R47 responded & found it fully involved. It appears to have been abandoned for some time. R54 did a great job of extinguishing it quickly!

## RAFT DEPLOYMENT

We recently received approval to deploy a few of our rescue rafts into the water before they get shipped off to be quality checked and serviced for usability.

Here are some pics from our 3 days of raft deployment training. Anytime we can do the "real thing" as opposed to simulating training is a "win-win" for us. Thanks to Chief D'Arcy for getting us the green light!

## ARFF Driving Academy, Germany

We recently had the opportunity to meet with a representative from the ARFF DRIVING ACADEMY – a German based consulting organization that focuses on improving efficiency and safety amongst ARFF responses. Florian Kubowski spent 2 full days learning our processes and training program – mostly from our H16's Janice & Francisco. In the process, we were able to learn from each other. Here is what Florian had to say:

I had the honor to visit San Francisco Airport on behalf of the ARFF Driving Academy & present our training there in practice. In addition, we jointly analyzed how our approach to ARFF driver training could complement the existing wide-ranging training programs for aircraft firefighting by integrating the specific task area of "driving".

Here, too it has been shown that specialization & concentration of tasks through appropriate organization & targeted training of the emergency services mean real added value in an increasingly complex world. This results in easier to achieve safety & performance.

Driving airfield engines is not just one of many tasks, but a specialty that requires profound qualification, education & specific training.

Thank you for the hospitality, San Francisco Fire Department!

Florian was extremely pleased with our training program and the knowledge and expertise of our H16's as well as ARFF drivers. A big THANKS to both Janice and Francisco as well as Lt Dockery for hosting Florian & for all the members who welcomed our German comrade!

### ← **EMIRATES CUSTOMER SERVICE**

Rescue 33 was recently called out by Emirates to be on stand-by in the event the Ambulift needed placing at the L1 door to remove a passenger who needed medical attention. Luckily for the patient and for us, we were able to remove the young woman via a back-board onto a food cart. Although it isn't ideal to have to use a food cart for patient extrication, it worked flawlessly. The patient, her newly married husband (they were on their honeymoon) and the entire crew of the Emirates flight were very thankful and pleased with our experience & professionalism. AMR was also included in that praise. As a result of that service call, the Emirates representative was more than willing to conduct tours of the Airbus 380 coming March 25-27<sup>th</sup>.

### A visit from Jeff Littlefield celebrating Black History Month

We recently had a visit to Station 3 from Jeff Littlefield, SFO's Chief Financial Officer. He demonstrated cooking a shrimp pasta dish for media crews in celebration of Black History Month.

**Bon Appetite!**

## Confined Space Entry @ Fuel Farm

### Confined Space Entry:

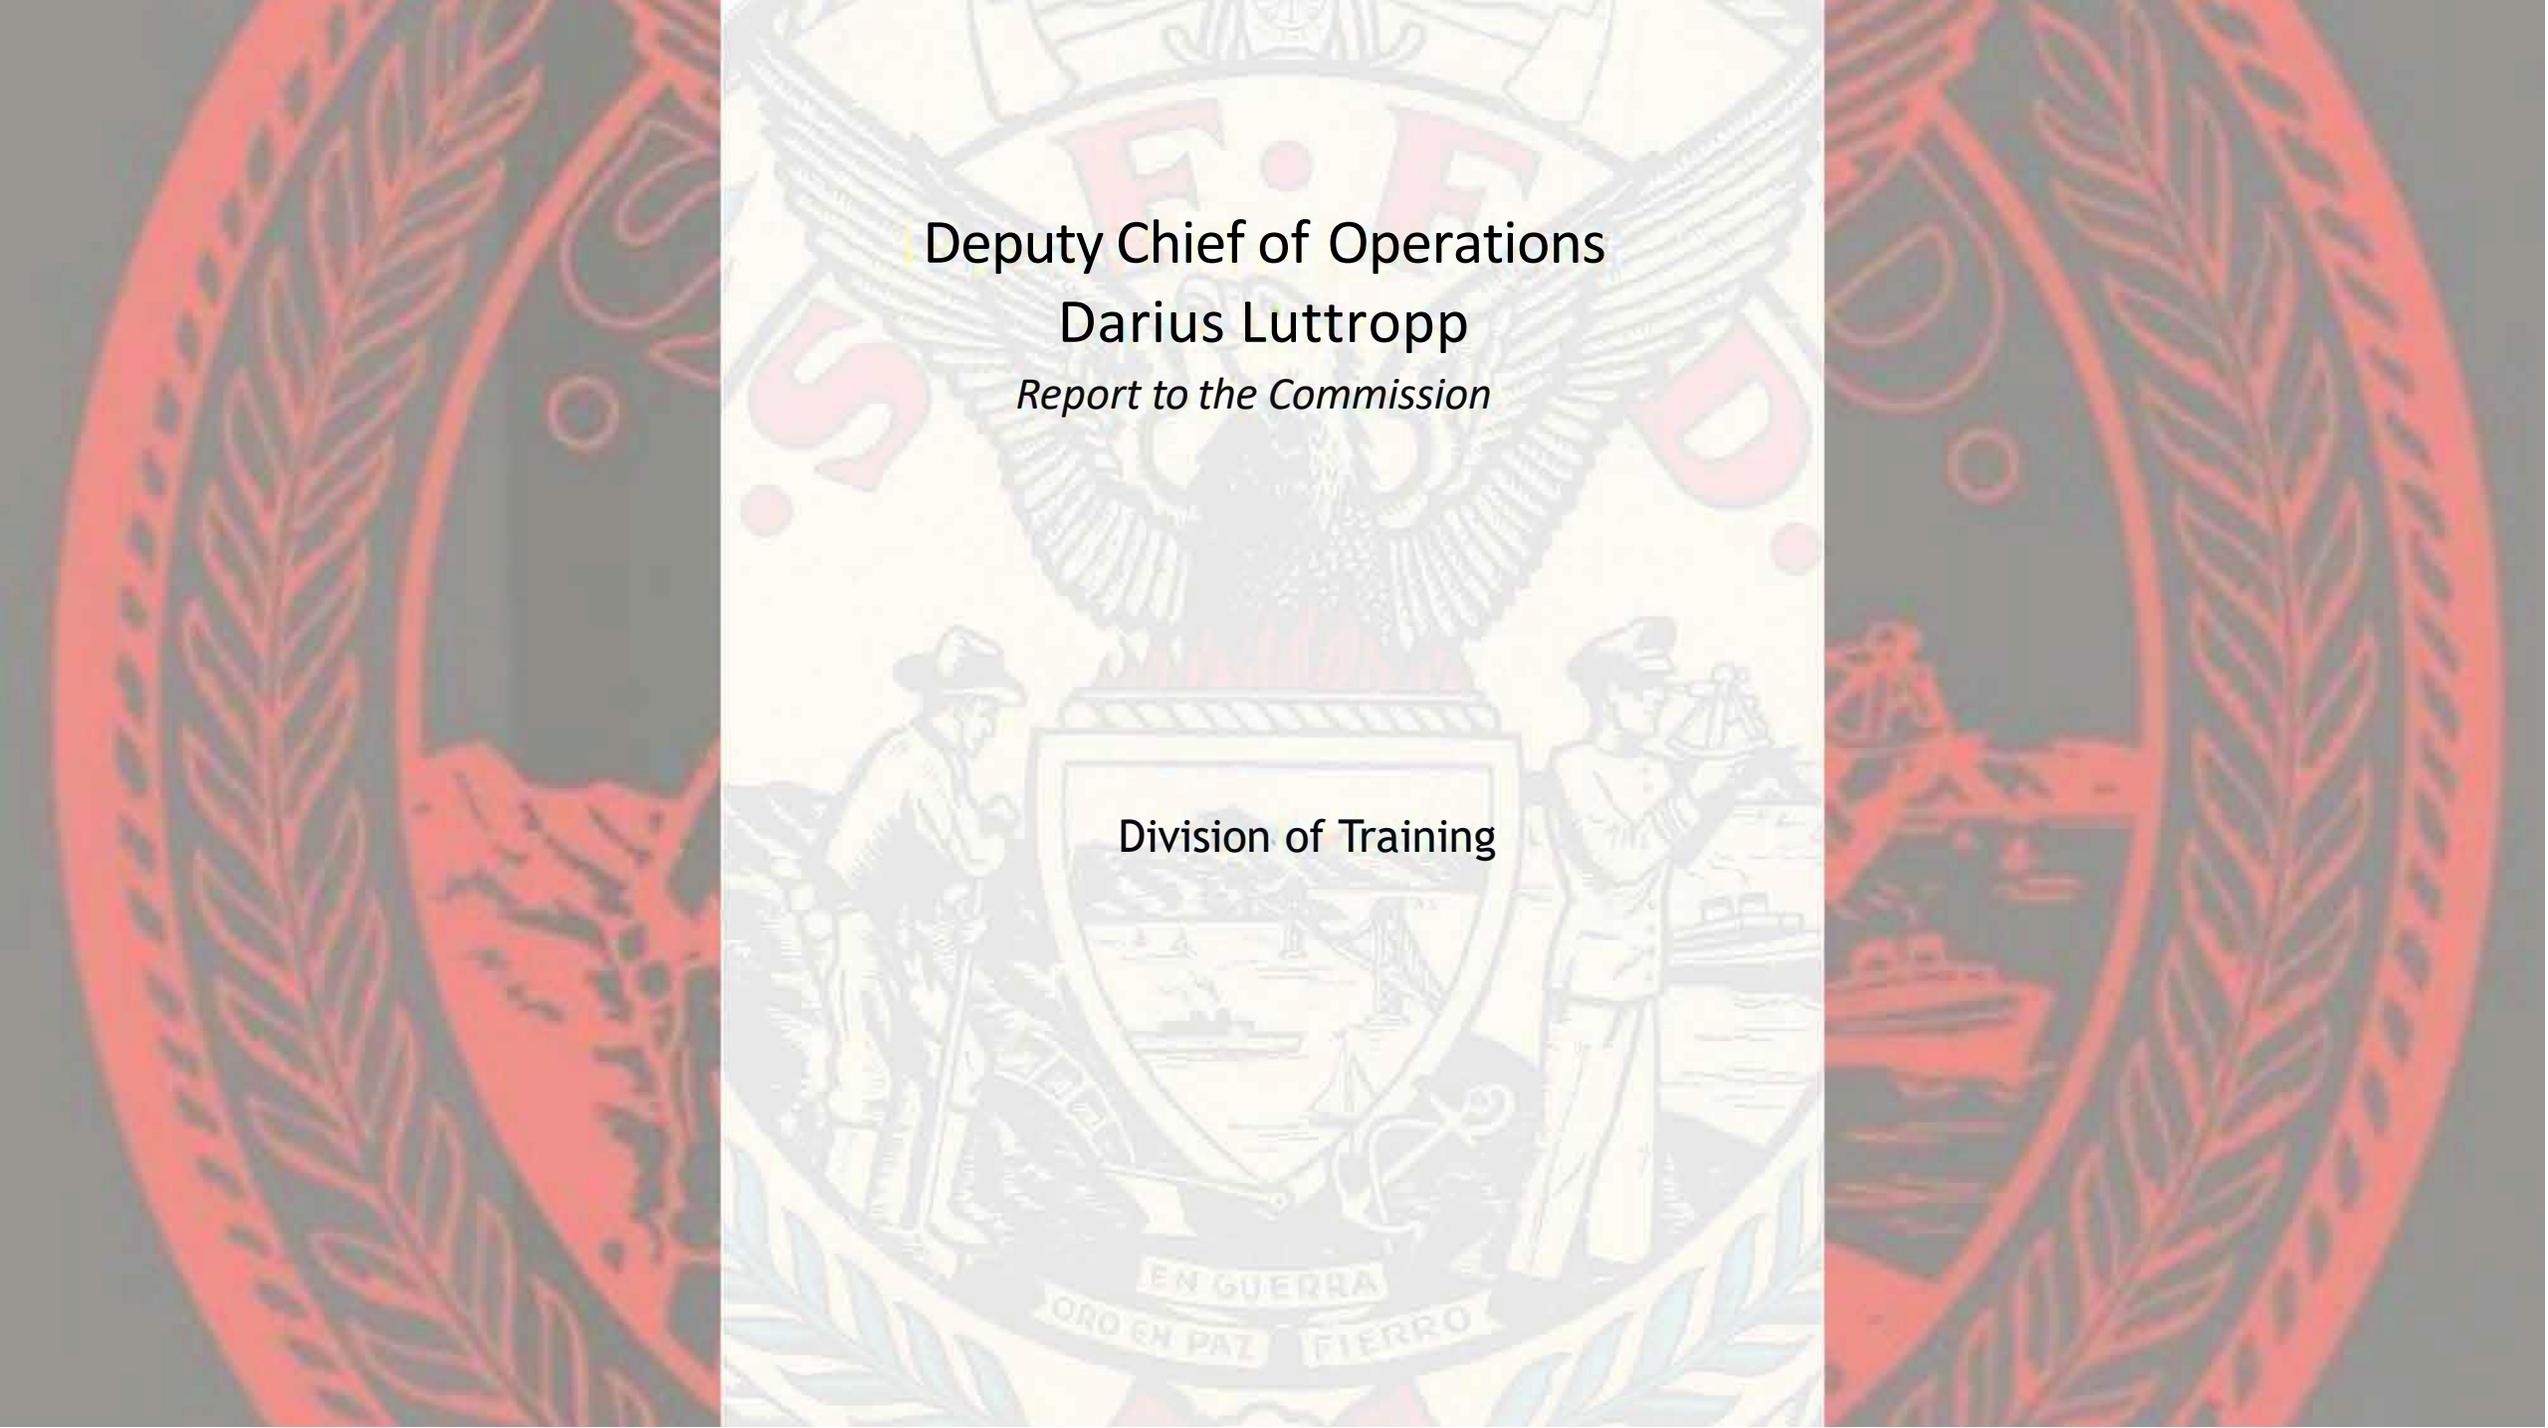

We were recently able to join forces with the Fuel Farm for their annual confined space entries. One was an entry into one of their largest fuel tanks which was opened for inspection (see bottom left pic).

The other was an entry into a below grade confined space vault located on the airfield at Uniform and Charlie where several members were able to put their recent training to work in joining the fuel farm crew.

All SFFD-SFO members are required to participate in at least one permitted entry per year to maintain the confined space certification.

Thanks to the Fuel Farm folks, this qualified. 😊

**Neighborhood Response Team (NERT)**

NERT is a free training program for individuals, neighborhood groups and community-based organizations in San Francisco. Through this program, individuals will learn the basics of personal preparedness and prevention. The training also includes hands-on disaster skills that will help individuals respond to a personal emergency as well as act as members of a neighborhood response team.

San Francisco is made up of many neighborhoods. NERT trains San Francisco residents to be one ready community when it counts. Together NERT can create a lifeline between your family and neighbors, and the City's emergency responders.
