E.S.E.R. BOND 2020 NFS – Updates through November 2024

Division of Training – Formerly “Fire Training Facility” (Scott Moran, San Francisco Public Works)

3D Massing Diagram – Exterior Building Treatment Rendering

Budget: \$275M

Phase: Design (Design Development)

Schedule:

- Estimated Start of Construction – Fall 2025
- Estimated Substantial Completion – Fall 2028

Highlights:

- Design continued in October and November with a 50% Design Development Review Set being released on 11/27/24.
- Negotiations continue on the MOU with SFPUC for the protection of their sewer infrastructure systems underneath the 3 paper streets on the site that will be vacated.
- SF Planning has provided a list of questions on 11/22/24, requesting additional information related to the updated environmental assessment for smoke emissions based on the SCS Engineers draft smoke study and WSP’s evaluation of that report. The answers to these questions will help Planning complete their evaluation of the new data and whether to consider modifying a mitigation measure in the CEQA, that originally proposed a smoke capture system.

- Additional on-site geotechnical investigations were completed in early October. The additional 23 soil borings will help provide more detailed soils evaluation and foundation recommendations. The final report will be provided in December 2024 to inform completion of the 100% Design Development package in late February 2025.
- The relatively small FEMA Grant proposed for the project was introducing complex federal requirements and further delaying the release of the RFQP for CMGC Services, so SFFD agreed to removing it from the project. The RFQP for CMGC Services was advertised on 11/25/24. Proposals are due on 1/14/25. After proposal evaluations, notification of the successful candidate, and agreement negotiations are completed, the agreement is scheduled to go before the Public Works Commission for approval in mid-March 2025.
- The Civic Design Review, Phase 1: Schematic Design presentation and review with the San Francisco Arts Commission (CDR Committee) occurred on 10/21/24. The committee approved the presentation by a vote of 4 to 1 (one commissioner dissenting). The exterior design included a proposed street-facing building treatment primarily consisting of red brick. Since then, concerns have been raised regarding maintenance issues related to graffiti, as experienced at other SFFD locations in the City. Other materials and protective coatings are being explored and evaluated in early December, including the creation of several mock-ups to test for ease of graffiti removal.

Fire Station 7 Replacement (San Francisco Public Works)

Budget: Expected budget of the Fire Training Facility does not create funding opportunity for the FS 7 project

Phase: N/A

Schedule: N/A

Highlights: N/A

P.H.S. BOND 2016 NFS – Updates through September 2024

The total funding allocated for Neighborhood Fire Stations is \$9.1M.

Seismic Improvement Program (Michael Rossetto, San Francisco Public Works):

Hose Tower Removal & Roofing (FS 6, 11, 12, 21, 38) – Complete.

Hose Tower Removal & Replacement (FS 15)

December 2023 JOC fee proposal was received and is in excess of the \$1M threshold. Design-bid-build will be pursued, adding approximately 6 months to the start of construction. SFFD has requested minor design changes with the addition of electrical outlets and a ship's ladder in lieu of a vertical ladder to the roof. BOA has met with SFFD to review design changes. An on-site meeting occurred with the radio Shop to determine replacement of antennas currently mounted on the existing tower. BOA will revise the drawings for final draft review with SFFD. BOA is producing fee proposal inclusive of structural and electrical for the SFFD requested changes.

- 11/27/24: Pre-Bid Phase - BOA (Vito V) to have final signed drawings as of 12/2/24. Vito re-sending 2022 QAQC forms to Reg. Affairs and SAR for their review and sign off.

Public Information Office

***Public Information Officer
Captain Jonathan Baxter, Rescue Captain Justin Schorr,
Lieutenant Mariano Elias
October/November 2024***

October PIO Incidents: 144	Interviews: 90	Events: 62
November PIO Incidents: 172	Interviews: 128	Events: 81

Operations:

The PIO Office is committed to providing internal and external information as needed. In addition to our department, the PIO office engages with the public and external public safety and government entities daily to ensure the safety of our members and the public we serve. This month, we focused on resiliency in communications with Fleet Week and the anniversary of the Loma Prieta earthquake. This focus allowed us to see how we would provide safety information to the public before, during, and after an incident concerning a significant catastrophe.

The PIO Office will staff an EOC/JIC in November for election day and has started meeting with DEM/MYR/SFPD on the upcoming NBA All Star Game and related events in 2025.

The PIO office has secured a venue for the “Meet your PIO” holiday event on December 16th, from 11 AM to 12 noon, at Reds Coffee in the Ferry Building. This will provide networking opportunities and offer on-camera safety tips for the holidays. 50 Branded thumb drives have been secured, which will be loaded with B-roll footage and SFFD contact info for members of our media community. This addresses an ongoing challenge of local media using non SFFD images when speaking about the SFFD.

Two media backdrop banners have arrived, one red and one black.

Facility:

This month, the Academy of Art Landscape Design program revealed concepts, and Chief Alba was present. The ideas are fantastic, and we are working on creative financing with BHU and the AAU.

Ada Wong is working on updating the photos of Chiefs in the Hallway to 870 Bush. As more information becomes available, we will follow up.

Training:

PIO Baxter attended crisis communications and communicating with people in crisis class. He also participated in an update to ADOBE products and a webinar on the use of GoPro. PIO Elias attended an intermediate PIO class for credentialing. PIO Menchaca attended an advanced PIO class for credentialing. PIO Schorr attended disaster communication classes. All members maintain Target Solutions and daily drills.

Members worked on identified classes needed for the State of California PIO Specialists. Team members are working on a list of required courses for 2025 and seek continued support for this important level of certification.

October's top content consisted of response videos of SFFD apparatus and a video of a heart attack survivor thanking rescuers. SFFD vehicles responding continues to be the top content on the page and is more likely to be shared and bring in more followers and viewers. A dramatic homeless encampment fire topped November content on Instagram however the touching story of Engine 28 cooking a family's Thanksgiving Turkey after an oven fire rose quickly in views over the holiday weekend. Active firefighting remains very popular with the audience

NOVEMBER HONORABLE MENTION

As the top video over the last 12 months has not changed we have decided to share a fun video that was enjoyed in our community this month. Lt Elias shared a walkthrough video of the Bureau of Equipment, originally built in 1917 for Engine Company 37. The video shows a number of vintage photographs and the inside of this old station. SFFD nostalgia has proven a steady topic of conversations online.
