### City-Approved Cancer Screening: Process Update

- Meeting with screening providers to compare:
  - Clinical performance and accuracy for firefighters
    - Member experience and invasiveness (prioritizing non-invasive options; avoiding endoscopy when possible)
  - Cost and overall value to members and the City
- Evaluating strategies that detect a broad spectrum of cancers at earlier, more treatable stages.
- Modalities under review:
  - Blood-based multi-cancer early detection (MCED) tests
  - Imaging options (e.g., full-body scans where appropriate)
  - Targeted, cancer-specific screening tools aligned to age and risk
- **Goal:** Select a screening pathway that blends proven methods with emerging technology and can serve as a national model for firefighter cancer prevention.

### New PPE (PFAS-Free & Brominated Flame-Retardant-Free): Selection Update

- Coordinated with ADC Mullin to determine the best option for our members.
- Brand selected using prioritized criteria:
  - **Lowest chemical-hazard profile** (PFAS-free; no brominated flame retardants)
  - **Cost-effectiveness** and overall value
  - **Comfort, fit, and wearability** — confirmed through field testing and member survey feedback

- Pier 33.5 preliminary Alternative Analysis Report (AAR): Project team continued evaluations to address stakeholders' review comments.
- Potable Emergency Firefighting Water System (PEFWS) project
  - Contract A (From Lake Merced Pump Station to Sloat Blvd) – Design progressing to 95% milestone.
  - Contract B is evaluating revised route along Sloat Blvd to Sunset Blvd.
  - Contract C, D and E (Through Golden Gate Park and Richmond District): Continued planning for Conceptual Engineering Report (CER).
- Pumping Station No.2 (JOC) – Providing additional enhancement to the electrical power via Job Order Contract (JOC). Coordination with PG&E is on-going. Expected final completion by October 2025.
- Street Valve Motorization at Evans and Napoleon – Continued construction to replace and modernize an existing 12-inch pressure valve with a new ball valve. This also serves as a pilot project for the PEFWS Pipeline.

E.S.E.R. BOND 2010 NFS – Updates through August 2025

**Additional Focused Scope Program (Michael Rossetto, San Francisco Public Works):**  
**Emergency Generators:**

- Fire Station 14 – Moved to ESER 2014 section

E.S.E.R. BOND 2014 NFS – Updates through August 2025

**Seismic Improvement Program (Magdalena Ryor, San Francisco Public Works):**

- **Fireboat Station 35 (\$50.5M)** – Certificate of Final Completion was issued on November 11, 2022.  
 [M. Rossetto] FS35 Security Gate Enhancement:
  - 1/6/25. The contractor mobilized on Monday Jan 6, 2025.
  - The project is complete and is in close-out.

**Focused Scope Program (Michael Rossetto, San Francisco Public Works):**

Total Funding allocated for the Focused Scope Program is \$21,407,279, approved by SFFD on 8/17/17. Work is complete in 8 of 9 of the Focused Scope categories comprising Roofing, Apparatus Bay Door Replacements, Exterior Envelope Improvements, Windows, Showers, HVAC/Mechanical, Sidewalk/Slabs, and Security Access Control. Work continues to progress through the last scope category, Generator Replacements.

**Emergency Generators:**

- **FS 2** – Scope of work: replace existing rooftop generator set, structurally strengthen roof structure to support new fuel tank with capacity for 72-hour run time and provide new fuel fill port and piping to generator.  
*This project is complete.*
- **FS 19** – Scope of work: replace existing generator at grade and replace main electrical panel.
  - The generator load bank lead time has increased, causing a generator delivery date into 2026. Deletion of the load bank was considered, which would have eliminated approximately 6 months of delay. SFFD has opted to retain the load bank due to the minimal cost savings that would have been provided. The Load bank lead time pushed the anticipated generator ship date to from November 2025 to May 2026.
- **FS 14** – Scope of work: Redesign of the previous replacement of the existing generator with new rooftop generator, new subgrade fuel fill port at the sidewalk in front of the station, and new fuel piping from sidewalk to generator is underway.
  - BOA has submitted AB-005 for delivering the fuel via hose or hand-carried containers to the rear yard to SFFD Fire Prevention. Pending SFFD approval, the project will be submitted to DBI for permit.

**Exterior Envelope:**

- **Package 1 (FS 8, 20, 23, 29)** – FS 8, 20, and 29 are complete; On 1/15/21, SFFD requested a hold on FS 23 painting due to other priorities.
- **Package 2 (FS 24, 34)** – This project remains on HOLD initially placed at the request of Capital Planning to provide supplemental funding to the Police TC&FSD project. It is now expected that those funds will be returned to the SFFD for allocation to a priority project, possibly FS24 and/or FS34.
- **FS 2, 17, 24 & 31** Water Intrusion Assessment (Lisa Zhuo, San Francisco Public Works) – Consultants are onboarding, we are still on schedule to begin the conditions assessment in Sept. 2025.

**Miscellaneous:**

FS35 Security Fence Enhancements, FS17 Boiler Replacement & FS 29 Apparatus Bay Door Replacement were requested as new projects by SFFD in August 2023. These are ranked as the highest priority (most urgent) projects after the Network Modernization project.

- **FS 35** – See Fireboat Station 35 description.
- **FS 17** – Boiler Replacement. Requested to reinstate previously on hold, per SFFD 5/5/25 email. Budget is in progress pending BSSR hazmat analysis scope.
- **FS 29** – Apparatus Bay Door Replacement: completed and is in close-out
- **DOT/FS 7 Railings**: completed and in close-out
- **FS 19 Window Replacement** budget was requested by SFFD, per email from 5/5/25. The Planning Department has agreed to allow replacement of the existing wood windows frames with aluminum on the condition that the aluminum profiles are like the existing wood profiles. This will be reviewed as part of the building permit application. An on-site scoping meeting is scheduled for August between BOA, BPW & the BBSR glaziers.

#### **Network Modernization Project (Michael Rossetto, San Francisco Public Works):**

As of June 2025, all fire stations have been completed and inspected, excluding station 51 which is under the Jurisdiction of The Presidio Trust who is requiring agreement modification with SFFD to allow the work to proceed. SFFD has been communicating with CAT for the Agreement modification.

#### **Water Intrusion Assessment at Various Locations (Lisa Zhuo, San Francisco Public Works):**

Fire Stations 2, 17, 24, and 31 have various degrees of water damage from water intrusion through exterior walls, windows, roofs. Etc. It was approved by the Fire Department to utilize interests earned from the ESER 2014 Bond to address these water issues at the locations mentioned above.

E.S.E.R. BOND 2020 NFS – Updates through August 2025

#### **Division of Training (Scott Moran, San Francisco Public Works)**

Civic Design Review Ph. 2 Rendering, DLR Group, 4/21/25

**Budget:** \$275M

**Phase:** Design (Design Development)

**Schedule:**

- Estimated Start of Construction – November 2025
- Estimated Substantial Completion – Fall 2028

**Highlights:**

- Estimates based on the 50% Construction Documents came in higher than the target “Design-To” budget of
- \$145M. Current estimates are between \$6.7M and \$15M over budget. Estimate reconciliations and potential value engineering options will be explored in September.
- Swinerton Builders (Construction Manager / General Contractor) solicited bids for elevators, and the subcontract was awarded in August to Otis Elevators only for the elevators in the Administration/Classroom building. The prop elevators for training are being rebid to different contractors since they are not functional elevators.
- The Water Board has accepted our work plan for additional site investigations. Ground penetrating radar and borings for water samples and soil gas readings are scheduled to occur on site in late September.
- Key Project Entitlements Timeline:
  - CEQA Addendum – COMPLETED 6/4/25
  - SF Public Utilities Commission Memorandum of Understanding regarding existing underground wastewater infrastructure – Negotiations in August were promising. Goal is now to be completed before end of September.
  - Board of Supervisors introduction of legislation for Planning Code Map Amendments and Street Vacations –INTRODUCED 7/29/25
  - Planning Commission Approvals for Planning Code Map Amendments (zoning & bulk/height changes) –SET FOR 10/16/25
  - Board of Supervisors approval of Planning Code Map Amendments and Street Vacations – now targeting late-October 2025
  - Building Permits – 5 Permit Packages have submitted to DBI:
    - Form 5 (Demolition & Grading): Accepted as Complete – Under Review
    - Volume 1 Site Permit (Overall Sitework): Accepted as Complete – Under Review
    - Volume 2 Site Permit (Bldg A: Admin/Classroom): Still being reviewed for completeness
    - Volume 3 Site Permit (Bldgs B1 & B2: Support): Accepted as Complete – Under Review
    - Volume 4 Site Permit (Bldgs C1 – C: Training): Accepted as Complete – Under Review

**Fire Station 7 Replacement (San Francisco Public Works)**

**Budget:** Expected budget of the Fire Training Facility does not create funding opportunity for the FS 7 project

**Phase:** N/A

**Schedule:** N/A

**Highlights:** N/A

**P.H.S. BOND 2016 NFS – Updates through August 2025**

The total funding allocated for Neighborhood Fire Stations is \$9.1M.

**Seismic Improvement Program (Michael Rossetto, San Francisco Public Works):**  
**Hose Tower Removal & Roofing (FS 6, 11, 12, 21, 38) – Complete.**

**Hose Tower Removal & Replacement (FS 15) - Tony Abuyaghi - PM**

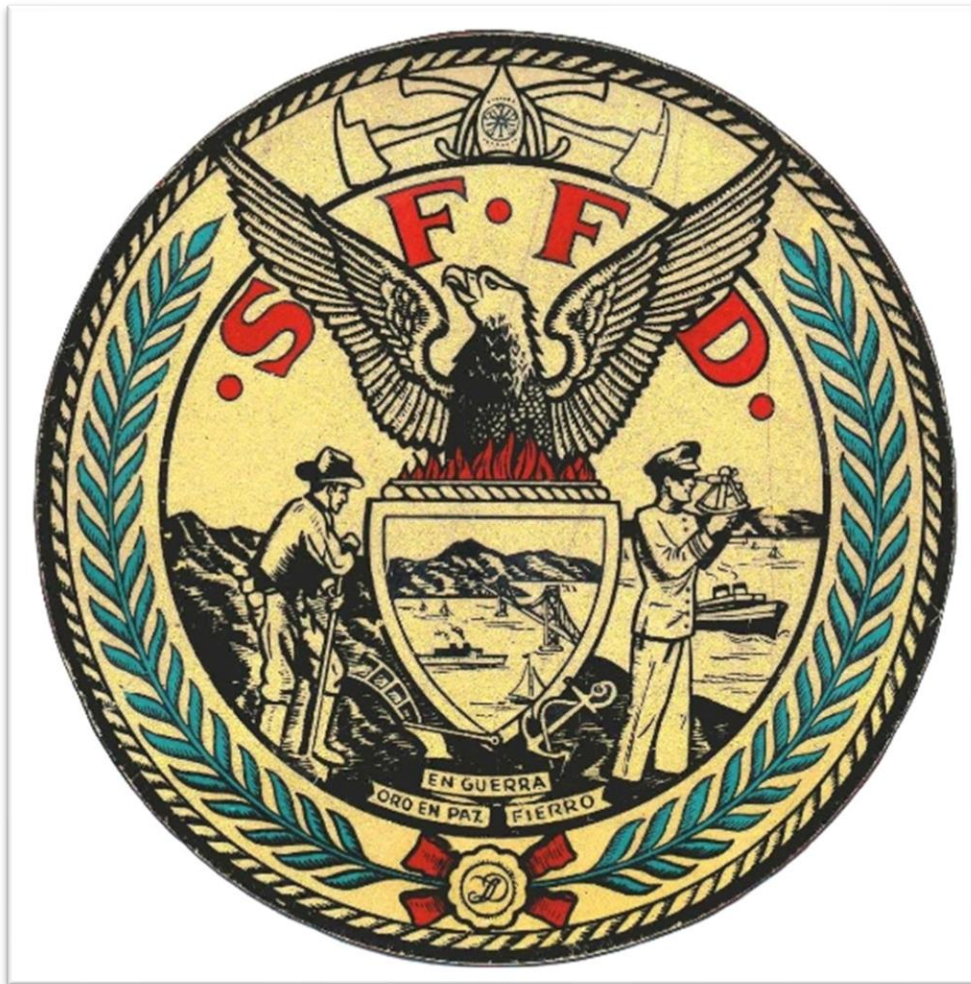

- Bid Preparation: PM submitted bid documents for contract prep on 9/2/25.
  - Tentative Schedule
  - Advertise – 9/29/25
  - Pre Bid Walk – 10/15/25
  - Bid Opening – 10/29/25

**Focused Scope Program (Michael Rossetto, San Francisco Public Works):**  
**Emergency Generators:**

- **FS 37 & 44:**
  - 6/16/25: Notice of Substantial Completion dated 6/13/25 was issued to BBJ Electric.
- **FS 18:**
  - 12/2/24: J56-14.0 NTP Date is 07/22/24. Duration is 600 Calendar Days. Completion Date 3/13/26. In submittal review & approval phase. Generator lead times pushed out to April 2025 delivery, but similar load bank delays seen at FS 19 will increase the lead time by approximately 6-7 months.

## Operations

The office remains fully operational, handling major events and emergency calls.

The office covered the following events with written, radio, social media, and media coverage: 136 H2 Academy start, Truck 1 AFN post, Outside Lands, Luke Bryant, Grateful Dead, Stern Grove concert series. We encourage you to view our social accounts for an overview of our work.

The office continues engaging with external agencies and the public, such as attending community meetings. We have been added to the SFPD district captain's community meetings to have full community engagement. Community meetings help keep our office informed about events, perceptions, and issues.

The new relief PIOs have been selected. Command staff hosted a virtual welcoming meeting with expectations clearly outlined. OIC Baxter went over in a post meeting training expectations, team goals, expectations, and projects for the new relief officers to start working on.

The office completed numerous long-term tasks this month, including the 2026-2028 strategic plan, the PIO trainee task book, the SFO PIO response plan, the vehicle replacement plan, updates to the city's crisis communications plan, a PIO recall plan, and additional initiatives.

The office has submitted a Mission and Vision statement, both of which are included in the 2026-2028 Strategic Plan.

Due to civil unrest, First Amendment activities, and planned major events, the city has activated the Joint Information Center at Level 4, with the option to move to Level 3 as needed. This has led the office to shift its focus to cover JIC positions in addition to its regular duties. We can adapt thanks to a revised roster and ongoing collaborative training with our city partners.

The office has developed a monthly checklist and charging list for all our digital equipment to ensure it is ready for our community and department if needed. Currently, each member is responsible for handling this task. The document will provide a more structured approach to this process.

MMS-O has officially moved into FS04 and has been a great partner to start a working relationship with. They have already been able to assist with field media capture on a 1-alarm and 2-alarm with whom to start a working relationship fires. Teams' channel is running great and has been helping all members of the Department and allied agencies.

### Training and Education

Members of the PIO team continue to pursue training opportunities to advance our ability to serve our community. All members receive regular webinars, articles, or digital content related to our job. This helps with ongoing education and improves situational awareness of current events and PIO tactics.

**CAL-OES Specialists:** Why does SFFD need this credential for information officers?

The consequences of failure are high. The stakes of the job also contribute to its difficulty. Emergency specialists are tasked with safeguarding lives, property, and the environment

during disasters, meaning there is little room for error. This adds a significant layer of responsibility and pressure to an already challenging role. The Cal OES Specialist Program is important because it formally recognizes and enhances the skills of emergency management professionals in specialized areas like public information and emergency management, leading to more effective, coordinated, and inclusive responses to disasters in California.

The current information officers which are OES specialist: Baxter, Menchaca, Schorr, and Elias.

Officer in charge Baxter held several virtual meetings with PIO leads from around the nation to improve our knowledge and skills, ensuring we provide the right information to the right people at the right time. This information is shared with members during shift change and has helped us complete the strategic plan, especially the SFO PIO plan.

This month, members took part in numerous drills and an off-site class focused on Media Relations. All PIO members also completed weekly drills and target solutions. Below is a synopsis of the training the office completed:

- Baxter – CPSE Credential, DJI basic course, POST strategic comms planning,
- Menchaca – DHS: Terrorist use of the internet, CCSF mandatory classes
- Elias – Art of reading smoke, CALOES - Specialist
- Curtis-Contreas – CALOES PIO courses
- Schorr- CALOES – Specialist

## Equipment

The DJI Osmo pocket 3 is in service, it was used for a dry run on FB35 for storyboard outline. The Slatwall project has been forwarded to support services.

The PIO car 104 went in for major repairs and is back in service. Daily inspections are carried out regularly.

## Technology

Starlink has been ordered for the PIO office which we had recommended. Thank you, Chief Brannan. Captain Jack Ayers recently utilized his own Starlink during a wildfire deployment, and

according to him, it was invaluable to the mission's success. Communication is a significant issue, and it is also instrumental in ensuring safety, as seen with internet outages, with the most recent Southern California fires.

The iPhone 16 upgrade has resulted in improved picture quality and fewer dropped calls. On 08/30 Verizon had a large cellular outage, the back up sim kept it in service without any issue. The office outfitted the phone with screen protectors and a case. Faster upload and sharing speeds have helped with daily operations.

The PA system is currently being tried for use and service and will be ready for the 9/11 post event at FS04.
