From: Chief of Department
To: Distribution List "A"
Subject: Company Based Modular Training Module 11 – Advanced Cardiac Life Support (ACLS)
Instructor Training
Reference: Rules & Regulations: Section 403
Enclosure: None

Officer Endorsement:

Section 1022 – R. & R. _____

1. Advanced Cardiac Life Support (ACLS) Instructor training will be held Monday, August 24 and Friday, August 28, 2026, from 09:00 - 12:00 hours each day. The course will be held at the Treasure Island Training Facility (TITF) in Classroom 3. This training is recommended for EMS Officers and Paramedics interested in teaching.
2. The Instructor training course *does not include ACLS Provider* during this renewal cycle. Members will be required to attend the Provider Renewal course prior to their expiration. If an Instructor candidate fails to renew their ACLS Provider card prior to expiration they will be ineligible for Instructor certification during this cycle.
3. Interested H-33 EMS Captains assigned to the field (RC1, RC2, RC3, RC4 & EMS6, CP5, CP7, CP12) will be scheduled on-duty for training in a limited capacity of one per day (seniority based). Field RC's signing up in the Appointments tab will be contacted by EMS Training Staff to confirm detail approval.
4. All other interested members may sign up via the Fire Station Portal in an off duty status. Class size will be limited to 15 students. Compensation will not be provided to members attending off duty.
5. Members wishing to become ACLS Instructors must complete an American Heart Association (AHA) ACLS Instructor application that will be provided in class. New ACLS Instructors must additionally complete the online AHA ACLS Instructor Essentials course and submit the Certificate of Completion to the Treasure Island EMS Training staff with their application.
6. All ACLS Instructor candidates must commit to teaching **four** classes during the ACLS Provider training module being held September through November 2026. This is an AHA requirement and instructor candidates will not receive their Instructor Certification until they complete the required teaching components. Members may schedule their teaching dates with EMS Training Staff after completion of the Instructor course.
7. Members may sign up through the Appointments tab in the Fire Station Portal of HRMS. Please direct questions to A/RC Clayton Palmberg at (415) 318-4501 or clayton.palmberg@sfgov.org.

August 25, 2026

From: Chief of Department
To: Distribution List "A"
Subject: Suppression and Field Rescue Captain Vacancy List
Reference: Rules & Regulations, Section 403
Enclosure: Attachment "A" – Vacancy List
Attachment "B" – Position Qualifications
Attachment "C" – Paramedic Engine Company Priority List

Officer Endorsement:
Section 1022 – R. & R. _____

1. Vacancy bidding for Firefighters (H-2), Firefighter/Paramedics (H-3 Level 3), Incident Support Specialists (H-10), Field Rescue Captains (H33), Officers (H20 & H30), and Battalion Chiefs (H40) will begin at 1200 hours, September 4, 2026. Members will select from a list of positions, save their selections in order of preference, and print a copy of their bid. All bidding shall be entered in the Fire Portal. The closure of this vacancy bid is 1200 hours, September 14, 2026. Bids will not be accepted past this deadline.
2. The vacancy list is included with this General Order, and positions will be marked either VACANT or OWNED. Members may bid for ANY position within rank, vacant or owned, on the premise that someone who owns a position may move, thereby creating a new vacant position. IMPORTANT – Applicants must ensure that their bid-required qualifications / certifications / licenses are current in the Fire Portal. Members who do not maintain the qualifications for the position will forfeit their owned position and be assigned to Vacation Relief status. Refer to Enclosure "B", *Position Qualifications*, for specific requirements of positions.
3. As stated in G.O. 25 A-084, effective this bid, all certification requirements must be completed and entered into the Fire Portal PRIOR to bidding for Rescue Squad positions.
4. Effective this bid, Stations 14 and 19 will have additional minimum certification requirements to bid for positions. See Attachment "B" for specific information.
5. Suppression and Field Rescue Captain positions with an asterisk (*) are positions owned by a member that is working in another assignment. For members making asterisk spots, if the member who owns the position returns to their original assignment, the asterisk will end and the member who had made the asterisk assignment will be assigned to Vacation Relief status. If the original member vacates the assignment, the asterisk will end and the member who made the asterisk spot will be assigned to Vacation Relief status, staying in the position until a new vacancy list is issued, however they will no longer own the asterisk position. Asterisk spots are only good for the duration of the asterisk. The newly vacated permanent position will be advertised as vacant in the next available vacancy bid. Only one asterisk will be allowed per position.
6. Effective this bid, Field Rescue Captains who are awarded a temporary (asterisk) spot will own the position for ONE bidding cycle. All Field Rescue Captain asterisk positions made in this bid will be vacated and available for rebid during the next vacancy bid.

7. Suppression Members who own an asterisk position own it for the duration of the asterisk and DO NOT need to rebid for that asterisk position.
8. Members who own an asterisk position prior to this vacancy will be held to the rules related to the asterisk outlined in the General Order from that year.
9. All positions will have two choices to choose from in the Fire Portal Spot Bid; one will be for **permanent**, and the other will be **temporary** (asterisk). Members may bid for a permanent position only or both permanent and temporary (asterisk) positions in order of preference. Fire Portal will not allow a bid for a temporary (asterisk) position without first bidding for the permanent position.

Example: Members can put in for Engine 1 permanent 1st choice, Engine 2 permanent 2nd choice, Engine 1 temporary (asterisk) 3rd choice, Engine 3 permanent 4th choice, etc.

****Please keep in mind that any temporary (asterisk) position made will not be permanent. ****

10. Members are reminded to review the sequence numbering for selected positions to ensure they are in numerical order and not duplicated.
11. Firefighters and Firefighter/Paramedics must have completed probation in their Permanent Civil Service rank to bid.
12. Members in Acting Assignments, administrative positions, Bureau of Equipment or Mobile Air may bid for permanent positions only, not temporary (asterisk) positions, in the rank of their permanent civil service classification. If a spot is made, said spot will become an asterisk that someone can make during this bid.
13. Officers at the Airport Division will “OWN” positions in the City. Officers at the Airport Division bidding for positions in the City during this bid will vacate their position at the Airport and occupy the position they are awarded in the City. If an Officer does not own a spot in the City, they may bid on a permanent position only in the City and remain at the Airport Division. If a spot is made, said spot will become an asterisk that someone can make during this bid.
14. Firefighters and Firefighter/Paramedics at the Airport Division bidding for positions in the City will vacate their position at the Airport and occupy the position they are awarded in the City.
15. Firefighters and Firefighter/Paramedics at the Airport Division must complete their two-year commitment prior to bidding on positions in the City.
16. Officers are not allowed to apply for vacancies in stations where they were permanently assigned as a Firefighter within the previous **24 months**, from 9/4/26. Swing and Super Swing positions going through said station will also be rejected by Fire Portal.
17. Only Chief Officers or Company Captains may contact the Captain of the Assignment Office regarding the vacancy list or bidding process.

18. The spot bid submissions generated at the close of the vacancy bid on September 14, 2026, will be continuously processed until all available positions are filled.
19. The results of this bid will be distributed no later than Friday, September 18, 2026, and will take effect with the pay period of January 16, 2027.

SAN FRANCISCO FIRE DEPARTMENT
GENERAL ORDER

File Code 26 A-072
August 28, 2026

From: Chief of Department
To: Distribution List "A"
Subject: Facility Level Alert & Response Escalation (FLARE) System
Reference: Rules & Regulations, Section 403
Enclosure: Enclosure 1 – FLARE Standard Operating Guidelines
Appendix A – FLARE System Quick Reference Poster (to Enclosure 1)

Officer Endorsement:
Section 1022 – R. & R. _____

1. Department facilities are critical infrastructure. Members operate in an open urban environment, maintain daily public contact, and respond during periods of elevated threat, civil unrest, major events, and emergencies. The Facility Level Alert & Response Escalation (FLARE) System standardizes protective measures at all firehouses, EMS stations, and other Department support facilities. These measures safeguard members, apparatus, equipment, communications systems, and continuity of operations.
 - FLARE is an internal SFFD framework that uses a color-coded hierarchy to allow rapid adjustment of security posture based on current conditions, intelligence reporting, or operational necessity. Levels may be activated Department-wide, division-wide, battalion-wide, or at a specific location.
 - The daily FLARE status will be annotated on the AO Reports Chiefs on Duty List. Notifications of any change in FLARE status may occur through station announcement over intercom, radio transmissions, chain of command notifications, or intelligence bulletins.
 - All members shall understand the FLARE levels and comply immediately upon notification.
 - Officers shall review the FLARE standard operating guidelines with members, conduct periodic drills on posture changes, and ensure continued familiarity with each level. The Department will review procedures as threats evolve and operational needs change.
2. The FLARE security levels, activation and de-escalation authority, responsibility, and documentation requirements are set forth in Enclosure 1 – FLARE Standard Operating Guidelines, with a condensed field reference provided at Appendix A. All members shall be familiar with the content of Enclosure 1 and Appendix A.
3. Any questions regarding the FLARE System shall be directed to the Homeland Security Division, ADC Erica Brown, erica.c.brown@sfgov.org.

Dean M. Crispin
Chief of Department

ENCLOSURE 1
FLARE STANDARD OPERATING GUIDELINES
Facility Level Alert & Response Escalation (FLARE) System

1. SECURITY LEVELS

The FLARE color system provides an immediate visual indicator of security posture. GREEN denotes routine operations. YELLOW signals elevated awareness requiring additional protective measures. RED denotes a direct or imminent threat requiring strict access control and hardened posture. BLACK requires immediate evacuation or vacating of premises due to urgent danger.

LEVEL GREEN — ROUTINE OPERATIONS

Condition: *No known threat indicators beyond baseline City conditions.*

Protocols:

- Maintain normal vigilance.
- Pedestrian access doors remain secured.
- Visitors admitted only by member authorization.
- Apparatus doors may remain open only when members are present and aware.
- Report suspicious activity through chain of command up to the Homeland Security Division for Suspicious Activity Reporting (SAR) to the Northern California Regional Intelligence Center (NCRIC).

LEVEL YELLOW — HEIGHTENED AWARENESS

Condition: *Major events, holidays, demonstrations, international incidents, credible non-specific threat reporting, or elevated tension.*

Protocols:

- Apparatus doors remain closed.
- Increase perimeter checks.
- Restrict unnecessary visitors and tours.
- Inspect rear doors, gates, roof access, and basement access points.
- Maintain ready access to PPE and radios.
- Officers brief incoming members.

LEVEL RED — DIRECT / IMMINENT THREAT

Condition: *Specific threat to responders, city infrastructure, Department facilities, or active security incident.*

Protocols:

- Apparatus doors remain closed except for response operations.
- No public access to quarters.
- Limit exposure near windows and glass entry points.
- Maintain accountability of all members on premises.
- Prepare for rapid relocation or deployment.

ENCLOSURE 1
FLARE STANDARD OPERATING GUIDELINES
Facility Level Alert & Response Escalation (FLARE) System

LEVEL BLACK — VACATE PREMISES

Condition: *Immediate danger requiring evacuation, including but not limited to: bomb threat, structural hazard, fire, gas leak, armed threat, hazardous material release, or directed law enforcement action.*

Protocols:

- Evacuate immediately using safest route.
- Bring radios if safe to do so.
- Move to a designated rally point and conduct accountability.
- Do not re-enter until authorized.
- Maintain operational readiness for reassignment.
- Follow SFPD / SFFD Incident Command instructions.

2. RESPONSIBILITY & AUTHORITY

The change in the FLARE level is authorized by the Chief of Department or designee. The ADC of Homeland Security Division or designee recommends advisory level changes to the Chief of the Department, citing supporting National Terrorism Advisory System bulletins or local intelligence. All members share responsibility for vigilance, reporting suspicious activity, and access control.

Emergency Authority to Act

When facing an imminent threat, company officers are authorized to implement the next protective level immediately, without waiting for formal notification or chain-of-command approval, whenever conditions reasonably indicate an escalation is necessary for Department members. The officer shall make notifications through the chain of command as soon as practical thereafter.

De-escalation

De-escalation follows the same authorization chain as escalation. A FLARE level shall not be downgraded until the triggering condition has been resolved, or National Terrorism Advisory System or local intelligence confirms a reduced threat. De-escalation shall be communicated through the same channels used to announce the original change.

Documentation

Each FLARE level change shall be logged with the time of the change, the authorizing official, the reason for the change, and the affected facilities. The Homeland Security Division shall maintain these logs and make them available for after-action review. FLARE level status shall be memorialized on the daily AO Chief's Report.

3. CONCLUSION

Adherence to the FLARE System is mandatory for all Department personnel. Security begins at quarters: every firehouse, EMS station, and Department facility is an operational platform that must remain protected, functional, and ready to respond. A lapse in facility security can affect member safety, apparatus readiness, communications capability, and the Department's ability to deliver emergency services. Clear color-coded levels give members a common framework to recognize changing conditions, reduce confusion, and apply consistent protective measures across the Department.

Sec.1022-R.&R. _____

1. At the request of the San Francisco Unified School District Board (SFUSD), the San Francisco Fire Department (SFFD) and the Alisa Ann Ruch Foundation (AARBF) will be providing Fire/Burn Prevention presentations at all SFUSD elementary schools on an annual basis.
2. The SFFD and AARBF have been partners since 2001, developing and presenting information from a rigorously developed, multi-lingual educational program, reaching between 9,000 and 15,000 students per year with only nine dedicated volunteers.
3. The Department is updating its list of SFFISE presenters in order to continue with our Mission: to prevent fires through prevention and education programs.
4. All Stations will be responsible for providing the program presentations to their neighborhood elementary schools, resulting in one to two presentations per year.
5. Captains shall identify/select at least one regular member of their Station, preferably a volunteer, to attend on-duty, certified SFFISE presentation training, and who will give the pre-scripted, 30-minute presentation at their neighborhood elementary school(s) while on-duty. Vacation Relief members are encouraged to sign up as well.
6. This one-day training will be held September 14-16, 2026 at the Division of Training 19th and Folsom Facility from 0930-1030 hours each day.
7. Members may only attend this training while working a regular day (REG), mandatory WDO, or trade (TRW) if the trade was entered prior to the date of this General Order. Compensation will not be paid to members attending class in an off-duty status.
8. Department members assigned to EMS, the Airport, or Fire Prevention who wish to attend this class in an on-duty status shall obtain approval from their Supervisor by way of General Form through the chain of command. Members must have this approval prior to the sign-up deadline.
8. Interested are to sign up via the "Appointments" tab on the Fire Station Application. The deadline to sign up is Thursday, September 10, 2026, 1200 hours.
9. Questions regarding this General Order should be referred to Firefighter Patrick Reyes at 760-889-7106.
