October:

Operational Activities and Responsibilities:

During October 2026, the Rescue Captains supported emergency response operations, personnel training, equipment readiness, and EMS program development through the following activities:

- **AED Equipment Maintenance:** Updated AED batteries and inspected equipment within AED cabinets to support operational readiness.
- **Operational Meetings:** Attended daily Battalion Chief and Airport Incident Operations Center (AIOC) meetings to remain informed of operational priorities and coordinate emergency response activities.
- **EMS Training:** Conducted Friday EMS drills to reinforce clinical skills, emergency response procedures, and personnel readiness.
- **Advanced Clinical Training:** Provided instruction to SFO Airport Paramedics and EMTs in Active Attack response drills, 12-lead ECG acquisition, video laryngoscopy, and I-gel supraglottic airway placement.

- **Community Education:** Delivered CPR/AED and First Aid training to members of the SFO airport community.
- **Professional Development:** Attended the State Fire Marshal's Instructor II course to further develop instructional knowledge and training capabilities.
- **Emergency Response Support:** Responded to calls for service to assist and observe paramedics during emergency incidents, supporting field operations and ongoing personnel development.
- **Bike Medic Program Oversight:** Supervised Bike Medic staffing and managed inventory to ensure personnel and equipment were prepared for deployment.
- **EMS Supply Management:** Organized and restocked the EMS supply room to maintain adequate inventory and ensure essential medical supplies were readily available.
- **Fire and EMS Drills:** Participated in daily Battalion and station-level drills to maintain operational readiness and reinforce emergency response skills.

Notable EMS Activity:

An unusually high number of **"CPR in Progress" calls** occurred during the reporting period, with **10 such calls reported over the preceding six weeks**. This represents a notable increase in high-acuity cardiac emergencies and underscores the importance of maintaining clinical proficiency, equipment readiness, and effective coordination among emergency response personnel.

Summary:

Throughout October, the Rescue Captains continued to support SFFD–SFO operations through personnel training, community education, equipment maintenance, emergency response assistance, and EMS program oversight. These efforts contributed to operational preparedness, continued professional development, and the delivery of emergency medical services at San Francisco International Airport.

Activities and Projects:

- The 138th is in full swing. We currently have 48 recruits.
- Special Ops is conducting several drills throughout the city. Currently, they are conducting RIC drills at Battery Dynamite. They just completed Large Area Search at 77 Beale St which was very successful. They will be conducting advanced Rope Rescue on Sutro Tower in the coming weeks.
- We continue to work with City College to develop a course for our members to be enrolled in their entire career. This will generate $3.50 per hour of training, and I estimate will being in funds over 1 Million dollars per year for training. This is moving forward fast and City College is fully invested

in this program. The class has been accepted at the local level and is being finalized at the state for a Fall of 2027 start.

- H16 Neal Narayan and H16 George Kliengklom have been creating training videos and rebuilding our Vector Solutions online training. These videos generate CJAC funds from our members. We will be releasing videos on alternate ladder raises very soon. They are also working with our Drone to capture aerial video of SFFD videos prior to El Nino.
- The DOT is hosting several classes utilizing our own experienced members and using CJAC Funds to support this. This includes RRAO, Rope Rescue Tech, Fire Investigation for managers, another Fire prevention Series, Public Safety Diver, Instructor 1 and 2, Lithium Ion and Incident Safety Officer. We recently had Thermal Imaging, and we are in the process of putting together Elevator Rescue Training. These will all be paid for with CJAC Funds.
- In-Service conducted a training module that started on 9/8. This was basement fires where a state of the art simulator was built which will have heavy smoke, low heat, and live fire. We integrated victim rescue and Thermal Imaging into this module. They are currently building a Flashover Simulator with Connex Boxes which was paid with CJAC funds.
- In Service Training has been having multiple live burns.
- The CJAC funds have continued to fund the excessive training going on in the field. It purchases lumber, props, and classes.
- We had a commemorative plaque placed on the Folsom Tower renaming it the Jason A. Cortez Training Tower honoring his dedication and service to our fire department. We honored him on 10/7 which is the anniversary of his accident and death with a Social Media Video.
- The DOT and the field have continued to increase their support for the Fire Reserves. We are detailing companies to assist them on Thursday training nights. Several officers have volunteered to assist with this. The Recruit Staff has worked hard to bring a “Academy Culture” with discipline and organization to our program, while maintaining respect for the great work they give to us at our Greater Alarms and events. This framework will prepare them to be successful if they choose to become full time members of SFFD.
- The Division of Training has started the process of preparing for 6 months of In Service Training after the graduation of the 138th. It is imperative we implement an excellent, realistic program to bring advanced training to our members.
- A/BC Murphy has been instrumental in planning our 6 month training program as well as collaboration with 798 and IAFF to keep TITF in the future.
- I am currently working with BC Alba to start a fitness program for our field members. This will bring in many CJAC hours. Several members in the field have offered assistance to make monthly fitness programs specialized for firefighting and EMS operation in collaboration with the Office of Employee Health.
- The Vehicle Extrication Cadre continues to have exercises at DOT Folsom.
- AC Winn and I are finalizing the syllabus for management training with DHR and our personnel as instructors.
- The planning phase for our 6 months of In-Service training will begin on November 9 so we can be in full swing by the New Year. We are working on acquiring buildings throughout the city for training on Engine and Truck Operations.

SFFD Division of Training
Special Operations Training
September / October Update
Captain Tyson Yee

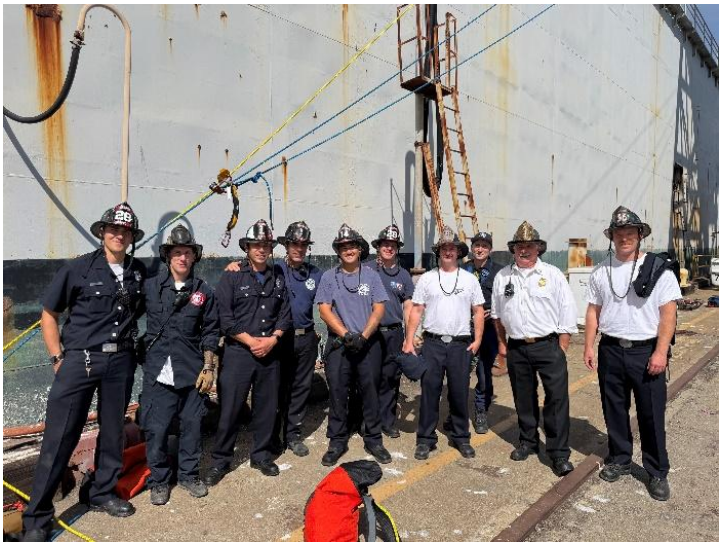

Report

- Special Operations were active in the areas of rope rescue and fireground search tactics for the past two months.
- We had the opportunity to use Pier 68 Dry Dock and a decommissioned crane for high angle rope rescue exercises with both Rescue 1 and Rescue 2 with additional companies coming from Station 1, Station 14, and Station 19. This was an attempt to get the cliff rescue units involved in next level high angle rope scenarios. All companies participating did well and rose to the challenge.
- On the last week of September, the RRAO cadre trained another 24 SFFD members to get the skills and certification to assist in rope emergencies. Most members came from rope rescue houses such as Station 14 and 19. There were some senior members who participated and were thankful that SFFD is putting on free classes for our members.
- Our biggest drills came on the last two weeks of October. We facilitated a high rise large area search drill which trained 112 firefighters over 4 days to be a search group under zero visibility at a high rise fire. Each session consisted of 2 engines, 1 truck, and 1 BC. The floor was smoked out, and 15 victims were spread out through a large office space containing cubicles. Crews deployed ropes, used the walls and hoses to actively search and rescue the people. It is a high risk, low frequency event that we should practice a minimum annually.
- Our last drill set of the month was a Rapid Intervention Team exercise with Firefighter Survival elements. 96 Firefighters took part in 4 days of training at the bunkers at Battery Dynamite in the Presidio. In teams of two, FFs were given the task of following a 200' ready line while negotiating profile changes, ladder crawls, 24" diameter pipes, wires, and stud wall props. At the end of the hose was a FF victim who needed to be dragged to safety and perform an EBSS air transfer in the dark. This was a great opportunity to test out the new SCBA models we just received.
- Lastly, Special Operations worked with other parts of our training cadre – NERT Citywide Drill, 138th PX testing, and SCBA testing at SFFD Headquarters. Special Operations also worked with our partners at the Sutro Tower to do a day of rope rescue cross training in preparation for a bigger drill in November. We look forward to re-visiting dive operations and ZOOX in the coming months.

Recruit Training
September / October 2026 Update
Training Captain Kevin Pardini

The following outlines SFFD Recruit and Instructor training activities for the months of September and October 2026:

The Academy is currently in week 13.

- During this report period, recruits regularly participated in daily physical training to increase personal fitness, receiving numerous instructor prepared lectures on firefighting related topics and taking part in continued EMS education and testing.
- 138th Recruit Training Academy and Staff relocated from TITF to the Division of Training Folsom for weeks 9 and 10. This was for use of the Jason Cortez Training Tower and exposure to additional teaching props and features.
- Recruit staff planning for transitioning to field training activity at the conclusion of the 138th Academy is also in progress. ADC Marc Kasper and BC Brian Murphy are coordinating with TITF- In Service Training and Recruit Training to merge resources in development of a scenario and skills based 2027 training calendar. This will be implemented for active field suppression units to enhance skills and expand abilities.

WEEK TO WEEK RECRUIT TRAINING SUMMARY

Weeks 5, 6 and 7:
The 138th Recruit Academy continued extensive training and testing covering the following subjects:

- **Vertical Ventilation-** Use of roof props to simulate ventilation of fires in field structures.
- **High Pressure Hydrant-** Preparing for use of distributing water through the SFFD AWSS.
- **Standpipes-** Understanding water supply connections in multi-story SF buildings.
- **FF Rescue-** Learning to locate a down firefighter under fire conditions and remove to safety.
- **SCBA-** Teaching proficiency and use of self-contained breathing apparatus.
- **Ropes and Webbing**- Use of specialized knots and techniques needed for the fire service.

Weeks 8,9 and 10:
Academy training moved further into the program with the SFFD's tallest ladders, in depth use of SCBA equipment, vehicle accident response tools and procedures, exposure to defensive fire master stream nozzles and equipment. The following were subject matter and testing covered:

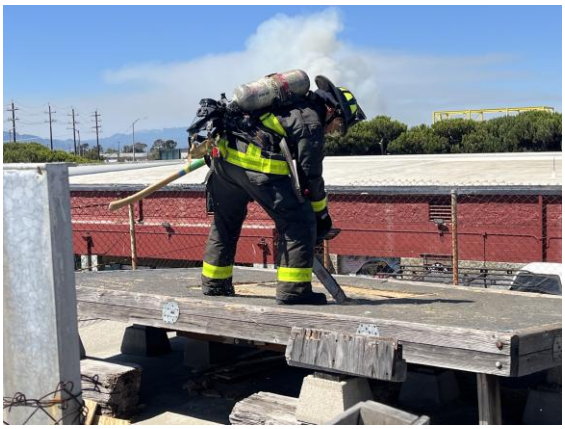

- **EBSS-** Emergency Breathing Support System (Emergency shared breathing between individual firefighters using SCBA equipment connections)
- **Master Streams-** Setting up large defensive hose streams and appliances for defensive fires (Multi-Versal and engine Deck Gun)
- **50 ft. and 35 ft. Ladders-** Demonstration and participation of standard and hill raises (Due to complexity, many hours are dedicated to this instruction)
- **Auto Extrication-** Education of vehicle accident response tools, procedures and EMS concerns. The class was allowed to apply skills to 5 donor vehicles.

- **Peaked Roof Ventilation-** Steep roof operations and technique while performing vertical venting.
- **Fire Escape Laddering-** Learning procedures and ladder placement to advance firefighters or remove victims.

Weeks 11 and 12:

Recruit Class 138 moved back to TITF from Folsom Tower Facility. Lectures during this period involved High Rise Building procedures, Social Media awareness and policy and a personal visit from Retired Assistant Chief Tom Siragusa to discuss the tragic fire of 133 Berkley Way.

- **Forcible Entry-** Using FD tools to force entry into locked doors
- **50 FT. EXT., Obstruction-** Alternate ladder raise
- **Ladder Rescue-** Removal of victim from a window by use of ladder
- **Large Line Wye and Ready lines-** Proper technique and use of hose leads
- **F.L.A.G. Day-** Use of propane fed active fire props to simulate fires involving flammable liquids and gas.
- **Active Shooter Training-** Procedure and skills to be deployed at such an event.

Neighborhood Response Team (NERT), RC Brandon Tom

September 2026 Monthly Report

NERT is a free training program for individuals, neighborhood groups and community-based organizations in San Francisco. Through this program, individuals will learn the basics of personal preparedness and prevention. The training also includes hands-on disaster skills that will help individuals respond to a personal emergency as well as act as members of a neighborhood response team. San Francisco is made up of many neighborhoods. NERT trains San Francisco residents to be one ready community when it counts. Together NERT can create a lifeline between your family and neighbors, and the City's emergency responders.

Upcoming for October 2026

Projects and Short-Term Plans
