TASC Monthly Section Update, Captain Chad Law

SFMTA - TASC, SDAT, DPW, Vision Zero Projects and SFFD Fire Access

SFMTA: TASC (Transportation Advisory Safety Committee) Summary

- No objections to traffic calming proposals for 4 bike share station locations, 3 raised crosswalks, 1 median island, 1 Class II Bikeway, 1 sidewalk widenings, 8 Speed Cushions.

SDAT (Street Design Advisory Team)

DPW

- SFFD received 11 requests from DPW for review to provide SFFD comments on developer/contractor projects that include street/sidewalk modifications, tentative mapping approval, street encroachments, sidewalk streetscape modifications; SFFD plan review to ensure SFFD apparatus, building and fire access. Reviewed 1 Fire Hydrant request not to relocate AWSS Fire Hydrants that currently does not have a 5 feet circumferential clearance but will within 9 feet from the new curb because of sidewalk extension. This is where a new handicap ramp or light poles are to be installed at the current locations. There might be SFFD operations visual difficulties to see a hydrant that is more than 2 from the curb, thus the SFFD requested an extended 18'-20' red No Parking zone with the potential of installing sidewalk signage showing "Fire Hydrant, Tow Away Zone" at this midblock location and the installation of blue reflectors.

SFFD Fire Access

- Working with the Chase Center and continuing to work with the Alice Griffith to maintain Fire Lane clearance.

Bollards

- Reviewing the plans for the installation of Collapsible or Retractable Bollards at 2 private locations outside of the Fire Access Lanes. Transbay Center Retractable Bollards are close to completing their DBI signoffs and be ready for SFFD review.
