

Operations Report

December 1, 2018 – December 31, 2018

Mark Gonzales

Deputy Chief of Operations

OPERATIONS REPORT

December 1, 2018 – December 31, 2018

GREATER ALARMS:

There were 2 greater alarm fires during this reporting period at the following locations:

2nd Alarm – (12/8/18) 1407 hours, 2030 Irving Street, cross street 21st Avenue, 2 stories, type 5. There were no injuries or displaced. This fire was an accidental electrical fire. (Chief Ken Yee)

MDT comments noted “Fire between the Walgreens and Sun Maxim; Reporting Party yelling for people to get out of the building.”

At approximately 14:10, Engine 22 Lieutenant Turner reported on scene with a corrected address of 2034 Irving Street (Sun Maxim Restaurant) and declared a Working Fire, with “Heavy smoke from the top.” Shortly after, Lt. Turner, now on the Tactical Channel, noted the fire is in the tradesmen’s alley between the Walgreens (2050 Irving Street) and 2034 Irving (a two-story, type 5 structure with residential over Sun Maxim Restaurant), and requested a second alarm. Lt. Turner and her crew led the 150’ ready line from Engine 22 into the tradesmen’s alley, extinguishing the majority of the fire.

Battalion 8, BC Kiernan arrived next, confirmed the second alarm on the Control Channel, and established Irving Street Command.

Engine 18 supplied Engine 22 from the low-pressure hydrant located on the northeast corner of 23rd Avenue and Irving Street. The driver of Engine 18, Firefighter Lee, took the initiative to park around the corner on 23rd Avenue and out of the way, as all four corners of this intersection had “bulb outs” and parking next to the hydrant would impede other oncoming fire apparatus. Captain Phillips and his crew from Engine 18 were directed to the second floor of 2034 Irving to check for potential rescues and for fire extension.

The second floor of 2034 Irving is actually 2030 Irving Street and consists of a single residential unit. Captain Phillips and his crew led the 200’ ready line from Engine 18 to the second floor, conducted a primary search and performed horizontal ventilation. Captain Phillips noted the side windows above the tradesmen alley had blown out from excessive heat. The residents of the unit had self-evacuated prior to the Department’s arrival. During overhaul, Captain Phillips and his crew found trapped smoke but no fire extension into the residential unit.

Engine 40’s Lt. Lam and his crew led a large line wye from Engine 22 to the front of the Walgreens and checked for potential victims and fire extension inside the Walgreens. The wall between Walgreens and the tradesmen’s alley consists of cinder blocks and there was no fire extension or smoke inside Walgreens.

Truck 12 parked in front of the fire building and raised their aerial ladder to the roof of Walgreens. Lt. Prakin and his crew checked the roofs of Walgreens and the fire building and found no fire extension.

This incident was a precautionary second alarm. The fire was confined to the tradesmen’s area and one of the exterior walls of Sun Maxim Restaurant. Arson investigators determined the fire had originated in the tradesmen’s alley from an electrical malfunction. Red Cross was called for the three adults that live at 2030 Irving Street.

2nd Alarm – (12/24/18) 1407 hours, 3838 Clay Street, cross streets Maple and Cherry, 4 stories, type 5. There was 1 death, 1 critically injured, and 1 member injured. (Chief Lorrie Kalos)

A full box was dispatched with the information that the resident called and there were 2 trapped in their bedroom. The bedrooms were on the 3rd floor.

Engine 10 was first on scene reporting smoke showing from the top floor. They proceeded with a large line wye as this is a four story, 4000 square foot home and the expectation was to lead into and up stair within the home. At the front porch, E10 had difficulty breaching the large 4+ foot wide solid core door with all brass hardware.

Battalion 7 was next on scene again reporting smoke showing. Shortly after the living room windows blew out (front and alpha / delta side).

Truck 16 arrived and saw victims in the third floor window and put the aerial to the left most window where the victim was waving / yelling. Firefighter Adams was on the aerial near the tip.

Battalion 4 arrived prior to Division 2. Upon the arrival of D2, Battalion 4 was assigned to Fire Attack.

FF Adams of T16 was trying to get to the victim from the aerial. The fire was licking up from the living room to the planter box and bedroom windows above. FF Adams would get close to the victims window then pushed back by flames. The fire would reduce and he would attempt again, only to be pushed back from the flare-ups of flames.

Battalion 7 called for a 150' ready line and T10 to try to put a hose stream between the aerial and the lower floor. This was not successful as the fire auto exposed into the bedroom windows catching the planter box and draperies on fire..

Simultaneously, Battalion 4 had made contact with E10 and Engine 31 who joined E10 at the front porch. Battalion 4 took over the breaching of the door and got it open. B4 told me that the fire was in the living room.

Moments after opening, they called for water while the fire flared into the foyer and out onto the porch over their heads. FFs were forced off the porch, over a low wall and 3 feet down onto the tradesman walk way.

B4 saw three firefighters on fire, so he took the 200' charged ready line from a FF from E 31. B4 put out the 3 members and reported that he was sending 3 out. The Lieutenant came out saying he needed a medic. The medic was present and began treatment.

Engine 51 was sent in to replace Engine 31.

A second alarm was struck and 3 additional ambulances were requested.

Fire Attack knocked down the fire. Battalion 7 was leading the rescue, now interior. Battalion 5 was safety. Rescue squad 1 arrived and began search and rescue. Second Alarm companies began to arrive. Fire Attack was calling for Ceiling hooks, etc. the IC sent in Engine 38 and Truck 5 to assist. Engine 21 became RIC, Engine 14 on standby.

E10 Firefighter called command via emergency traffic though it was not clear or heard. T10 stepped in and reported roof ventilation activities. Emergency traffic resumed, ultimately reporting the finding of the first victim. I called to ensure RSI heard and proceeded to assist in extricating the victim. I also called for a medic to the Command Post for the victim. The victim was transported code 3.

RS1 resumed search and a second victim was found in the bedroom. Unfortunately, the victim was deceased. A medic unit met with firefighters and the victim at the roof deck to confirm status. The SFPD were called to stand guard while awaiting the Medical Examiner.

Fire Operations continued. Though the fire was suppressed quickly, containment was not announced until further opening of the ceilings and walls. Once the third and fourth floors were cleared, containment and later, under control, was announced.

All remaining units (first and second alarm companies) were rotated through the overhaul of this structure. At which time it became clear that this fire had been burning for a long time prior to the reporting and dispatch of the first alarm.

This fire was determined to be accidental in nature.

Fire Commission Report – December 1 to December 31, 2018

ADC Andy Zanolff

General Activities

- Continue to go out on Ride-alongs as schedule permits
- Continue to attend 9-1-1 Operations Committee meetings
- Continue to attend Ambulance Deployment Facility design meetings

New Year's Eve 2019

- New Year's Eve call volume was handled adequately.
- ADCs Cochrane and Zanolff participated in several conference calls in preparation for New Year's Eve
- They developed and implemented the Department's Event Plan
- We would like to thank our partners in other City Agencies for their help in making the operation go smoothly and effectively; MTA, San Francisco Sheriff's Department, SFPD, MUNI, the Port of San Francisco, San Francisco General Hospital Pharmacy, and the United States Coast Guard.
 - We would also like to recognize our EMS Logistics Officer Deborah Palmer for all of her work and assistance with this deployment
- From the Embarcadero Event, we had nine (9) requests for service, and five (5) transports.
 - Overall, the Fire Department ran 449 calls for service

H-8 Paramedic Per Diem Program

- Issued invitations to seventy paramedics (some from San Francisco, others from Contra Costa, Alameda, San Mateo, Monterey, and Santa Cruz counties)
- Interviews took place on Monday, Tuesday, and Wednesday of the first week in December
- Division of Training has set dates for the upcoming H-8 Academy
 - Orientation February 6
 - Online Training February 11
 - Classroom February 25

Vision Zero Ambulances

- We continue to collaborate with Assistant Deputy Chief Anthony Rivera and Support Services
- Design has been finalized
- Anticipated delivery of ambulances to Station 49 is February 2019

Bay Area EMS Mutual Aid

- Met the new Regional Disaster Management & Health Services Coordinator for Region II
 - Discussed capabilities of Bay Area providers

- Participated in Ambulance Strike Team Leader class
- In Alameda County
 - Assisted with signing several Task Books
- Met with leaders from surrounding EMS Agencies and Providers
- Participated in several discussions regarding Bay Area Counties and Medical Mutual Aid

Services for EMS Captain Michael Kirk (deceased)

- Assistant Deputy Chiefs Zanoff and Cochrane developed and implemented the EMS Plan for the services at Saint Monica's Church
- We mourn the passing of a member of our Department. His family and his memory are in our thoughts and prayers

Services for Firefighter Steve Pacatte (deceased)

- Assistant Deputy Chiefs Zanoff and Cochrane developed and implemented the EMS Plan for the services at Saint Cecilia's Church
- We mourn the passing of a member of our Department. His family and his memory are in our thoughts and prayers

Pediatric Resuscitation on New Year's Eve

- Units responded to a patient reportedly having a miscarriage in the early morning hours of December 31st.
- The crew found a premature-birth infant, provided aggressive airway and breathing assistance and delivered both patients (mother and baby) to UC Mission Bay
 - UC Mission Bay is our pediatric specialty care hospital
- The baby would not have survived if not for the swift actions and expert airway control that was provided by our members
 - Engine 33 (Ryan Toby, Jennifer Romanini, Bryan Lee, Erik Ziegler),
Medic 83 (Anthony Chiacco, Colleen Kellison), and RC-4 Paramedic
Captain Beth Goudreau
- Compliments to all involved

EMS-6 represents EMS-6's activities and client contacts. These numbers are representative of the number of client contacts that EMS-6 makes in the course of their shift and activities. These numbers do include repeat callers, so a single client may account for several contacts.

Fire Incidents represents suppression calls to tent encampments. These are not duplicates of Medical Incidents, and these are taken directly from the NFIRS database. The NFIRS includes Codes 1600 and 4000, which designate SPECIAL OUTSIDE FIRE or HAZARDOUS NON-FIRE. These Special Codes contain sub-sets of qualification, which include TENT Call or ENCAMPMENT.

Medical Incidents represents the EMS responses in which the ambulance or ALS Engine crews checked NO IDENTIFIABLE HOME ADDRESS on their charts. This query extracts CAD Incident Numbers, so it eliminates duplicate counts that would result if each response apparatus were considered a unique call. These numbers do include repeat callers, as the query does not key on patient names, so a single client may account for several responses.
